Courses (District) 1

Courses (District)

Scheduling > Maintenance > Master Schedule > District > Courses

This tab allows you to maintain course records in the district master schedule.

Add and modify courses:

Field	Description
search drop-down	Select the field by which you want to search for courses.
search	<p>Type all or part of the search phrase.</p> <ul style="list-style-type: none"> • If you search by course number, title, or service ID, the search retrieves courses that <i>begin with</i> the characters or numbers you typed. For example, if you select <i>Course Title</i>, type 'eng' to retrieve all courses with a title that starts with Eng. • For <i>Course Number</i>, you must include leading zeros. • If you search by abbreviated name, the search retrieves courses that <i>begin with</i> the characters you typed. For example, type 'math' to retrieve all abbreviated names that begin with the letters math. • Leave blank to retrieve all courses.

Click **Retrieve**.

- A list of courses that meet the specified criteria is displayed. The list [can be re-sorted](#).

You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending  or descending  order.

- If more courses are retrieved than can be displayed on one page, you can [page through the list](#).
- Course records are only retrieved if the Grade Reporting current year master schedule was copied to Scheduling.

Change the grid view:

The default view in the grid is basic course information indicated by ⇒ **Crs Nbr** in the area below the grid. You can modify the view in the grid by clicking an underlined header in that area.

For example, if you click the **Scheduling** header, only restrictions information is displayed in the

grid. The Scheduling header is displayed as ⇒ **Scheduling** indicating that it is the current view.

- Click  for a record in the grid to edit the course record.
- Or, click **+Add** to add a course.

The fields are displayed below the grid in a free-form format where you can add or update the record.

Field	Description
Crs Nbr	Type the four- to eight-digit course number assigned to the course by the district. <ul style="list-style-type: none"> • Only uppercase alpha characters are allowed. Any lowercase letters are converted to uppercase when you save. • Special characters are not allowed. <p>If you are editing an existing record, the field cannot be updated.</p> <p>NOTE: If you have selected to change the course number length on Maintenance > Master Schedule > District > District Control, a crosswalk is created and the New Course Number field displays the new zero padded course number next to the old course number.</p>
title	Next to the Crs Nbr field, type the name of the course, up to 15 characters, with no commas.
Abbrev Name	Type the eight-character abbreviated course name that will print on the AAR (SGR2047). The field is for local courses only.
Service ID	(Required) Click  to select the service ID for the course. TWEDS Data Element: SERVICE-ID (E0724) (Code table C022) The service ID description is displayed next to the field. For Classroom Link, verify that the appropriate service ID is assigned to each course. Service IDs that begin with SA, SR, SS, 8, or 9 are not reported for PEIMS. NOTE: Local Service IDs that begin with 8 must be unique and cannot end in XXX.
Graded Crs	Select if the course is graded.
Nbr Sem	Select the number of semesters of the course.
Textbook ISBN	Type the international standard book number (ISBN) associated with the textbook for the course, up to ten characters.
Exclude from txGradebook	Indicate if the course should be excluded from the Attendance and/or Grades pages in TeacherPortal.
Self Paced	Select if the course is self paced. Self-paced courses can only be one semester long.

Select Graded Crs if the course is graded. The field is selected by default. If the course is nongraded, clear the field.

In the Nbr Sem field, type or click to select the number of semesters of the course.

In the Textbook ISBN field, type the international standard book number (ISBN) associated with the textbook for the course. The field can be up to ten characters.

In the Exclude from txGradebook field, type or click to indicate if the course should be excluded from the Attendance or Grades pages in txGradebook.

Select Self Paced if the course is self paced. Self-paced courses can only be one semester long. Do not select Self Paced for a course that is not one semester.

Under Scheduling, add data in the following fields:

In the Per Ctrl field, type the period control number, which is the number of class periods per day the course meets multiplied by the number of semesters taught. The period control number is used to check the accuracy of the information entered for course sections and student course requests. The default value is 0. The field can be up to two digits.

It is recommended that you update the Period Control field.

Example: If a two-semester course has a duration of one period, the period control is 02 (2 semesters x 1 period). If a two-semester course has a duration of two periods, the period control is 04 (2 semesters x 2 periods).

In the Department field, type the code indicating the academic department with which the course is associated. The field can be up to three characters.

The department codes are district-determined and optional.

In the Gender Restr field, if the course is restricted to one gender, type or click

to select the gender.

Select Required or Elective to indicate if the course is a required or elective course. The default setting is Required. When the current view is set to Scheduling, the selected option is displayed in the Course Priority column in the grid.

Note: The scheduling load attempts to schedule students into their required courses before their elective courses. If a student has a singleton that is a required class, and a singleton that is an elective class, the scheduling load schedules the student into his required singleton class first, and then schedule the student into his elective singleton second.

In the Other Categ field, type or click to select an (optional) additional subject category for which the course will be listed in txMyZone. This category is in addition to the service ID.

Under Course Codes and Credits, add data in the following fields:

In the Tot Credits field, type the number of academic credits awarded to students who pass the course. The field can be up to two digits. The decimal is inserted automatically. For example, if you type 10, the field displays 1.0.

Select Part Credit if partial credit is awarded to students who fail one or more semesters or are only enrolled in part of the course. The field is selected by default.

Note: Partial credit is not allowed for regular one-semester and self-paced courses. If you select the field for one of these courses, a message is displayed indicating that it cannot be done.

In the AAR Use field, type or click to select the code for the academic area in which the course is a requirement.

In the Grad Plan Use field, type or click to select the subject area to which the course should be applied on a graduation plan, if other than the course's service ID type.

In the Spec Cons fields, type or click to select the code indicating any special considerations for the course that should be noted. The codes are printed on the AAR. You cannot select the same code for both drop downs.

In the Credit Seq field, type or click to select the code indicating how credits are awarded.

Valid codes

In the Credit Level field, type or click to select the code indicating the campus level at which the course is taken.

Select CPR if the course allows a student to meet the requirement for cardiopulmonary resuscitation (CPR) instruction. The CPR instruction must include training that has been developed by the American Heart Association or the American Red Cross, or using nationally recognized, evidence-based guidelines and incorporation psychomotor skills to support the instruction.

Select Speech if the course allows a student to meet the Foundation High School Program (FHSP) requirement for speech skills.

Under Elem/Misc, add data in the following fields:

In the Core Crs field, type or click to select the code indicating the core course type.

In the ELA Wgt (English language arts weight) field, type the percentage of the total language arts grade that the grade for the course represents. The field can be up to two digits.

In the Auto Grd field, type the default grade that should be assigned to students who have no grade recorded for the course. The field can be alpha or numeric and can be up to three characters.

Select Incl UIL Elig if the course is used in determining six-week eligibility for extracurricular activities. University Interscholastic League (UIL) rules allow certain courses to be exempt in determining six-week eligibility.

Note: This field, as well as the Include UIL Elig field on the course section record (Scheduling > Maintenance > Master Schedule > Campus > Sections) affect the UIL Eligibility report in txGradebook.

If the field contains a value in the course section record, that value is used.

If the field is blank in the course section record, the field on the district course record is used.

In the Exam/Sem Pat (pattern) field, type or click to select the code indicating when exam and semester grades are given.

Under PEIMS, add data in the following fields:

In the CTE Hrs field, type the number of Career and Technical Education (CTE) hours associated with the course (i.e., 1-6). The hours are used by the Attendance application to compute CTE contact hours. If this is not a CTE course, leave the field blank.

In the Pop Srvd field, type or click to select the code indicating the student population primarily targeted for the course.

In the Instr Sett field, type the code for the instructional setting used when providing instruction to the students in the course. Or, click to search for the instructional setting code.

In the Class Type field, type or click to select the code indicating the type of class used when providing instruction to the students in the course.

In the Role ID field, type or click to select the code indicating the capacity in which the instructor serves the students during the course.

Note: Role ID 000 (i.e., other) is not used here and is excluded from the drop down.

In the Course Seq field, type or click to select the code indicating the sequence of the course. The code is not necessarily the actual semester the course is taught.

Under HR/GA (honor roll/grade averaging), add data in the following fields:

In the HRoll Wgt field, type the number of times the course is counted in honor roll computation. The field is one digit. Type 0 to exclude the course from honor roll computation.

In the HRoll Table field, type or click to select the code indicating the table used to convert the student's course grade in honor roll computations.

In the HRoll Cd field, type or click to select the code indicating if grades or students should be excluded from honor roll computations.

In the GA Table field, click to select the code indicating the table used for grade averaging computations that includes the course.

In the GA Wgt field, type the number of times the grade for the course is counted in grade averaging calculations. The field is one digit. Type 0 to exclude the course from grade averaging.

Click Save.

To edit a course record, click . The data is displayed in the free-form area below the grid allowing you to make changes.

Update the fields in the free-form area, and then click Save to save the changes. The changes are displayed in the grid.

To delete a course record, click . The row is shaded red to indicate that it will be deleted when the record is saved.

You can select multiple rows to be deleted at the same time.

Click Save. The selected rows are deleted.

Notes:

You can save changes and delete records in the same step (i.e., the changes are all committed when the record is saved). If any changes do not pass validation (i.e., cannot be deleted or have validation errors), none of the changes are saved.

Courses cannot be deleted if they are selected by a campus, have section records or are a part of a graduation plan that has students assigned to it.

If you attempt to delete a course that cannot be deleted, a message is displayed, and the course that cannot be deleted is listed.

If any course cannot be deleted, none of the courses are deleted.
