# Individualized Education Program (IEP) Goals

## *Special Education > Maintenance > District > IEP Goals Objectives > IEP Goals*

Every student enrolled in special education must have an Individualized Education Program (IEP) that describes the student's educational goals and objectives. The IEP Goals tab allows district-level employees to create a list of IEP goals. Then campus-level employees can include any of these goals in a student's IEP.

A goal is a subject area in which the student is to be instructed. Each goal is associated with a series of performing objectives, and each performing objective is associated with a series of enabling objectives.
