This page allows you to view and update a student's EOC English Transition test data.

In 2012-2013 school year, students took separate English Writing and English Reading EOC tests.

Starting in 2013-2014, the tests were combined into a single English EOC exam. To facilitate the transition, the EOC English Transition test was created. Students who passed either the reading or writing assessment for previous English I and/or II exams, met the minimum score on the other, and achieved at least a combined scale score of 3750, are given credit for the associated EOC test.

Pearson provides this file to the school districts.
