StudentPortal: Set Up and Use StudentPortal

Welcome ASCENDER StudentPortal!

StudentPortal is a web-based system for students that provides the tools that will help you view your attendance, grades, and assignments, as well as organize and plan your schedule of classes. StudentPortal includes two applications, Student Course Requests and Student Graduation Plan.

Student Course Requests allows you to request courses for the next school year, including alternate courses. Once you submit your course requests, you cannot go back to change them. If you need to make changes, you will need to visit with your counselor.

Student Graduation Plan allows you to view and change your graduation plan, and view and print the summary and detail of your course credits. Graduation plans are for high school-level students only. Any coursework completed prior to the 9th grade will be reflected in the remaining credits needed, which can be viewed through the Credit Summary and Credit Detail pages of the StudentPortal Student Graduation Plan application.

III. Verify Data

Verify courses available for each grade level and that restrictions are set correctly.

Scheduling > Reports > Scheduling Reports > Master Schedules > SCH0133 - StudentPortal - Course List

This report lists next year course, restrictions, and period control information for a campus. The data can be used for StudentPortal to verify that restrictions and period control are set correctly and to show the courses available for each grade level.

If a course does not have a pre-grid grade restriction for each grade level at the campus, the course is displayed for all grade levels.

Excluded courses are omitted from this report (i.e., if **Excl Stu Crs Req** is selected on **Scheduling > Maintenance > Master Schedule > Campus > Courses**).
