TeacherPortal Administrator Guide

Administrator Access

Set up a TeacherPortal admin user.

Various levels of administrative access can be set for TeacherPortal. Each district should designate appropriate staff members at the district and campus level to manage ASCENDER TeacherPortal and ASCENDER ParentPortal.

A single administrator account can give a user access to both TeacherPortal and ParentPortal admin pages.

- Access to TeacherPortal is established on district and campus menus in Grade Reporting.
- Administrators can be given full maintenance access or inquiry-only access, and they can be given access to one campus, several campuses, or all campuses.
- Campus-level administrators can also be assigned Discipline-only access.

NOTE:

ParentPortal administrative access allows user to:

- Search for, review, impersonate, and delete ParentPortal accounts
- Active or inactivate TeacherPortal access by date
- Allow student discipline data, immunization, and test score data to be displayed for parents
- Manage online forms and online registration fields, and campus/district setup to use Online Registration
- View overall usage statistics for ParentPortal.

The admin page of ParentPortal can be accessed by adding /adminLogin.aspx to the end of the district's ParentPortal URL.

IMPORTANT: Before beginning, review TeacherPortal > Security Administration to determine who has access to **Grade Reporting > Maintenance > Gradebook Options**.

❑ STEP 1. Create a Principal/Counselor or Instructor record.

The district Administrative Users tab is used to set up administrative users who can access, change, or inquire about teacher data at any campus.

You can also set up multi-campus users who can access multiple campuses as an administrator, but do not have access to all campuses in the district.

TIP: When creating a district-level admin user, DO NOT select **Multi Campus User**. This option should only be selected when setting a campus-level user to have access to multiple campuses.

All districts need at least one district-level administrative user.

☐ Click **+Add** to add an administrative user.

The fields below the grid are enabled.

Access student data:

As an administrator, there are two ways to access student data:

- Impersonate a teacher then use TeacherPortal as that teacher.
- Use the [Admin - Student Grades](#) page to search for a student and view semester exam grades, semester and final averages, and credits awarded.

Admin Options

Click the title above to reveal additional administrative options.

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to select the teacher for whom you want to log in with administrator privileges. After you select a teacher from this page, you can access TeacherPortal as if you were that teacher; however, there are some differences:

- The Admin menu is displayed in the main menu. Click **Admin** to return to this page to select another teacher.
- In the Settings menu, the Update Admin Profile menu item appears instead of Update Profile.

There are multiple levels of administrator access:

- Administrator with full access - You can perform all functions, including saving, posting, and printing.
- Inquiry-only access - You can view all pages, but all buttons (except Print buttons) are disabled. Even if you change data in a field, you cannot save changes, so all changes will be lost when you leave the page. Inquiry-only users can print data.

Any changes you make while you are logged in as an administrator are logged with the administrator user ID. This allows you to distinguish between changes actually made by the

teacher and changes made by an administrative user.

Run as Teacher	Select Campus	<p>Select the campus of the teacher you want to impersonate.</p> <p>If you are a district-level administrator with “all campuses” access, all campuses in the district are listed.</p> <p>If you are a multi-campus-level administrator with “multiple campuses” access, the campuses you have been given access to are listed.</p> <p>If you are a discipline-only user for a campus, the campus is only listed in the drop down allowed by the district.</p>
	Select Teacher	<p>The list is filtered according to the selected campus and includes all teachers at the campus who currently have a user ID for TeacherPortal.</p> <p>The list is sorted alphabetically by the teacher's last name and includes the instructor ID.</p> <p>If a teacher teaches at more than one campus, the teacher's name is displayed for each campus.</p>

Once you select a campus and teacher, the campus name, teacher name, and instructor ID are displayed in the left-side navigation bar.

Select a page from the main menu to access a page.

[Reports > User Log Report](#)

This page is only available to users who log on to TeacherPortal with a district-level security administrator user ID.

The User Log Report provides a district-level report of all TeacherPortal user actions according to your specified criteria.

User logging must be turned ON by unselecting the **Logging Off** option on *Admin > District Settings*.

☐ Specify report options:

Primary Data Selection Options	Page	Select the TeacherPortal page to view user activity for, or select <i>ALL</i> to view activity for all pages.
	User	Select the user to view user activity for, or select <i>ALL</i> to view activity for all users in the district.
If you make a selection in both fields, the results will include user actions for the user for the selected page only. You cannot select <i>ALL</i> for both fields.		
Filtering Options	From To	To limit your search to a particular date range, type the beginning and ending dates .
	Limit data by a specific action - Action	To limit your search to a particular user action (e.g., save), select the action.
	Limit data by a keyword in the action detail - Action	(Optional) To further limit your search, type an action. This is a free-form search that will return any matches that occur in the Action Detail column in the TeacherPortal Log table, which is where all user actions are stored. For example, type a student ID to locate records referencing the student ID during a specified data range. Because of the wide range of data included in this column, it may be helpful to generate the report once without entering data in this field, and then review the data first. Upon reviewing the data contained in the Action Detail column of the report, you may identify search strings that will help you further limit the report data if needed, and then you can re-run the report with a value typed in the Action field.
Separate data by user session	Select to group the report data by session (i.e., user ID or page, and then date-time stamp). Otherwise, the report data will be sorted by date-time stamp. Note that a user session is created each time you open a browser and request data from a server. A user session ends when you close the browser or when a timeout occurs.	

☐ Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page is the first step in viewing the [Admin - Student Grades](#) page. You must select a specific student at a specific campus before viewing the Admin - Student Grades page.

Although this page is for administrative users, the page can be used to run the Admin Student Grades report for a student group by any user who has existing groups. If you are running the group report, the page title is Admin Student Grades - Find Student From Group. Also, the **Student Groups** field is displayed instead of the student search options.

☐ Specify search criteria:

NOTE: You can search either by student ID or name; you cannot use both options at the same time.

Student ID	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
Last/First Name	Begin typing the student's last or first name. As you begin typing the name, a drop-down list displays students whose name matches the letters you have typed. From the drop-down list, select a student.

Campus ID	Type the campus ID at which the student is currently enrolled. If you are logged on as a campus-level administrator, the campus ID is set to the campus you are logged on to and cannot be changed.
------------------	--

☐ Click **Search**.

Enrolled students who match the criteria entered are listed, including student ID, name, campus, grade level, and enrollment date for each campus. Students are sorted by last name, first name, and enrollment date. At this time **Campus Withdrawal Date** does not populate.

Student Groups	The field is displayed if you are running the group report. Select the student group from which you want to select a student.
-----------------------	---

The students in the selected group are listed.

☐ Select the student record you want to view, and click **View Student**.

The [Admin - Student Grades](#) page opens.

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to view semester exam grades, semester and final averages, and credits awarded for all of a student's courses, which allows administrators to determine UIL eligibility and locate students who may be at risk for losing eligibility.

Semester	By default, a condensed view of the current semester and cycle is displayed. To view data for a previous semester, select the semester.
Show Current Courses Only	<p>By default, all of the student's courses for the semester are displayed, including courses from which he has withdrawn. Select the field to see only the student's current courses.</p> <p>The student's working cycle average is displayed for the current cycle, unless a posted or override grade exists.</p> <p>The semester average is labeled as Posted, Override, or Working.</p> <p>If all courses are displayed and the student withdrew from a course, the message "withdrawn" and the withdrawal date are displayed next to the course title.</p>
Show All Detail	<p>A condensed overview of the student's cycle grades for all of his courses is displayed by default. Click Show All Detail to view all details for all courses for the current cycle.</p> <p>The detailed view includes the student's assignment grades, working cycle average, override grade (if present), and posted grade.</p> <p>Assignment grades are sorted by due date, and then by assignment name within each category.</p> <p>For each assignment, the due date is displayed and an indication of whether the assignment was late or a re-do.</p> <p>Dropped grades display the message "(Dropped)" next to the grade.</p> <p>If the teacher is using points-based weighting, the points earned and possible points are displayed. For example, 9/10 is displayed if the student earned 9 points and the assignment is worth 10 points.</p> <p>If the teacher is using percentage-based weighting, the actual points and total possible points are displayed if the total possible points is less than 100 (e.g., 45/50).</p> <p>For students who transferred into the class, the transfer date, transfer average, and transfer weight are displayed.</p> <p>See the Calculate Averages guide for an explanation of calculating averages.</p>
Hide All Detail	Click to return to the condensed view, or click Close Details for a particular course to condense the view for that course only. You can also click the current cycle grade to condense the view for that course.
Previous Cycles	To view details for a specific course for a previous cycle, click the grade average for the cycle. Click Close Details to close the view for that average.

Student	Click the student ID to view the student's profile.
<hr/>	
Change Student	Click to view data for another student. The Admin Student Grades - Search for Student Grades page is displayed allowing you to search for another student.
Print	Print the data displayed on the page.
