[Copy Student Groups](#)

[Settings > Student Group Manager](#)

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

Once a teacher has established a student group using [Settings > Manage Student Groups](#), you can copy the teacher's groups (with the students) to another teacher.

This page is only accessible from the Manage Student Groups page.

If you are logged on as an administrator, the **Copy Group to Another Teacher** button is displayed on the Manage Student Groups page.

Remove a course from a teacher's group.

Course Grouping Flow Chart

If the course-section is part of a group, and the teacher for a course changes during the year, the new teacher will not be able to add the course to a group. When the new teacher attempts to add a course to a group on [Settings > Manage Course Groups](#), the message “Exists in another group” will be displayed next to the course in the **Ineligible Courses** list.

[Settings > Manage Courses](#)

To resolve this issue so that the new teacher can add the course to a group, a TeacherPortal administrator must delete the course from the original teacher's group as follows:

1. Log on to TeacherPortal and impersonate the new teacher.
2. While impersonating the new teacher, go to [Settings > Manage Courses](#). Retrieve the course-section, and then click  to delete the course from the group.
3. Click **Save**.
4. Repeat for all applicable courses.

Teachers with Course Groups	Select the teacher currently assigned to the group.
Eligible Course Groups	The selected teacher's current groups are listed. Below each group name are the courses associated with the group. Select a group.
Move Group to this Instructor	<p>There are three possible situations that can occur:</p> <ul style="list-style-type: none"> • If the selected teacher is the teacher for all of the courses listed in the selected group, the group cannot be moved to another teacher and following message is displayed: "This group is already with the correct teacher. No teacher exchange necessary." • If the courses in the selected group are assigned to multiple teachers, the group cannot be moved to another teacher, and the following message is displayed: "Multiple teacher found. Cannot exchange this group." In this case, an administrative user can remove a course from a group for a teacher on Settings > Manage Courses. • If the selected teacher is no longer the teacher for any of the courses listed in the selected group, and another teacher now teaches all of those courses, the new teacher for the courses is listed under Move Group to this Teacher, and the Move button is displayed next to the new teacher's name.

NOTE: You will not receive a prompt to confirm you want to move data. Before clicking

Move, ensure moving the group to another teacher is what is intended.

- Click **Move** to move a group to the teacher who is currently assigned to the courses.
