### 001 School Announcements

Teachers,  
**Start of school year: All Teachers, new and returning, must create his or her account as a new user each year.**

In the **Substitute For** field, select the teacher you are substitute teaching for.

- Only teachers you are assigned to teach for are listed.
- The beginning and ending dates also determine which teachers are listed.

If the beginning date is in the future, the teacher is not listed until the current date is within the range of dates specified. Once the current date is past the substitute's ending date, the teacher is no longer listed.

Click **Teacher**.

A message is displayed indicating that you are now substitute teaching for the selected teacher. The teacher's three-digit control number is also provided.

**NOTE:** Once you have selected a teacher, the Update Profile page is no longer available. See the Update Profile Settings section below for information about how to update your profile settings.

---

To select another teacher, you must log out, and log in again.

[Use TeacherPortal as the teacher.](#)

When logged in as a long-term substitute teacher, you can maintain and print most data that the teacher would be able to access, including attendance, assignments, grades, discipline, and reports.

For assistance with these pages, view the online Help for each page.

As you update and post data in the database tables, be aware that the teacher's name will be associated with some actions, and the substitute teacher's name will be associated with other actions.

- If you mark grades as ready to post, the teacher's name is reflected.
- If you post attendance, the teacher's name is reflected.
- If you enter a discipline referral, the substitute's name is reflected.

[Update profile settings as needed.](#)

Once you have selected a teacher from the Announcements page, the Settings > Update Profile page is no longer available.

If you need to make changes to your profile, you must log out, and then log in and access the Update Profile page before selecting a teacher.

For assistance with the fields on the page, view the online Help.

## **Reports:**

[Generate seating chart report.](#)

Reports > Seating Charts

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report selection page remains open on your desktop.
