# Teacher Guide to ASCENDER TeacherPortal

## Overview

Welcome to ASCENDER TeacherPortal!

- Teachers must re-register each year before logging on, as all TeacherPortal non-administrative user accounts are deleted at the end of each school year. **Administrative user accounts are retained.**
- To register, you must provide your staff ID and name. You must be associated with the district for the current school year. Upon registering, you will create your user name, password, and PIN.
- A staff ID can be associated with multiple user accounts, which allows you to have both a teacher account and one or more administrator accounts. The user name must be different for each account.

**IMPORTANT:** Upon initial account creation or log on to the portal, the End User License Agreement (EULA) for ASCENDER is displayed. Users must accept the agreement in order to proceed.

### NOTE:

- If you forgot your password or PIN, click **Forgot Password** on the [Login](#) page to go to the [Reset Password](#) page where you can reset your password using an automated process.
- If you forgot your user name, click **Forgot User Name**.

Teachers who do not have administrative access are directed to the Announcements page upon logging on. The Admin menu is not displayed in the main menu, and some reports that require administrative access are not displayed in the Reports submenu.

- Teachers of courses where students must meet UIL eligibility requirements (e.g., band or athletics) can be granted access to the UIL report in the Reports menu. The UIL report allows a teacher to view the students' working cycle averages for all of their courses to determine UIL eligibility and locate students who may be at risk of losing eligibility.

- Teachers can be given permission to create campus-wide or course-wide groups of students in TeacherPortal. Special group reports are available that provide data for the student groups.

## Access TeacherPortal

[Create an ASCENDER TeacherPortal account.](#)

- From the Login page, click **Create Account**. The User Information page is displayed.

To exit without saving any changes, click **Return to Login**.

### User Information:

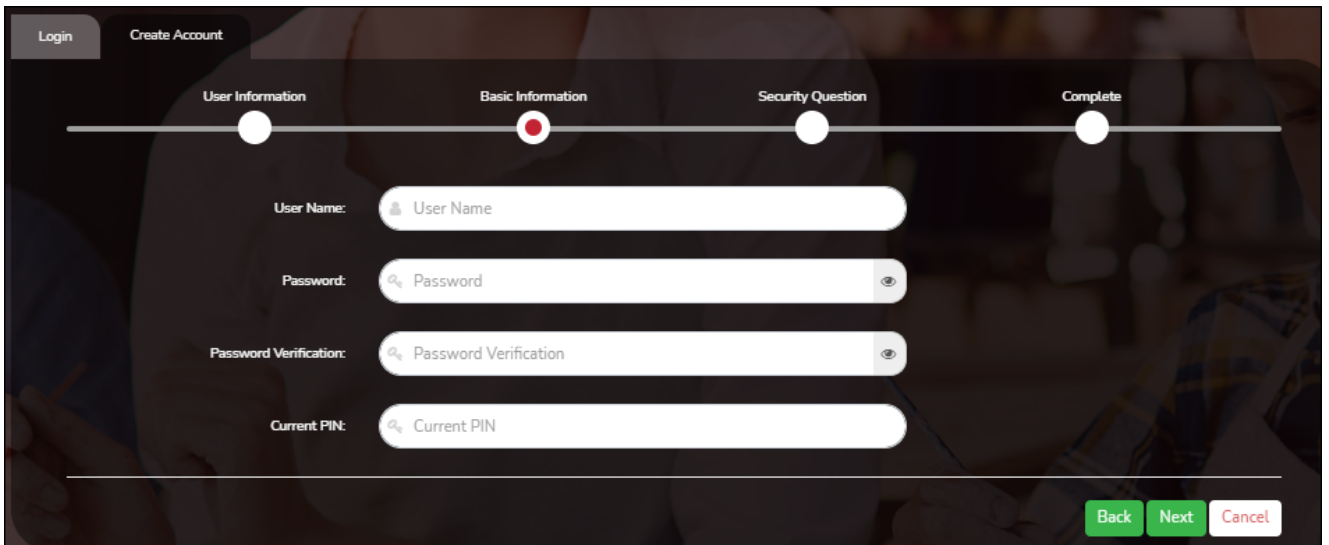

The screenshot shows the 'User Information' page in the ASCENDER TeacherPortal. At the top, there are two tabs: 'Login' and 'Create Account'. Below the tabs is a progress bar with four steps: 'User Information', 'Basic Information', 'Security Question', and 'Complete'. The 'User Information' step is currently active, indicated by a red dot. Below the progress bar, there are three input fields: 'Staff ID' with a lock icon, 'Last Name' with a lock icon, and 'First Initial' with a magnifying glass icon. At the bottom right of the form, there are two buttons: 'Next' (green) and 'Cancel' (white).

<b>Staff ID</b>	Type your staff ID number.
<b>Last Name</b>	Type your last name
<b>First Initial</b>	Type the first letter of your first name.

☐ Click **Next**.

If you entered the data correctly, the Basic Information step opens.

**Basic Information:**

<b>User Name</b>	Type a unique user name that will identify you when you log on to the system, such as a combination of letters from your first and last name. <ul style="list-style-type: none"> <li>• Your user name must be 6-25 alphanumeric characters and must be unique within the district.</li> <li>• Your user name is not case-sensitive.</li> <li>• If you type a name that is already used, available alternatives are suggested.</li> </ul>
<b>Password</b>	Type a password that you will use when you log on to TeacherPortal. <ul style="list-style-type: none"> <li>• The password must be 8-46 characters using three of the following: uppercase letters, lowercase letters, numbers, and special characters</li> <li>• Your password is case sensitive.</li> </ul>
<b>Password Verification</b>	Retype the password exactly as you typed it above. This step confirms that you typed your password as you intended.
<b>PIN</b>	Type a four-digit numeric personal identification number (PIN) that you will use when you post data in TeacherPortal. <b>Avoid using 1234, 4321, or all the same number, as these are common and easily guessed.</b>

☐ Click **Next**.

If you entered all required data correctly, the Security Question step opens.

## Security Question:

The screenshot shows a user interface for creating an account, specifically the 'Security Question' step. At the top, there are two tabs: 'Login' and 'Create Account'. Below the tabs is a progress bar with four steps: 'User Information', 'Basic Information', 'Security Question' (which is currently active and highlighted with a red dot), and 'Complete'. Below the progress bar, there is a instruction: 'Provide answers to three different questions. The information will assist you in resetting your password.' The main content area contains three question-answer pairs. Each question is in a dropdown menu, and each answer is in a text input field. The questions are: 'Question 1: Mother's maiden name.', 'Question 2: High school mascot?', and 'Question 3: Where were you born?'. The answers are labeled 'Answer 1', 'Answer 2', and 'Answer 3'. At the bottom right, there are three buttons: 'Back' (green), 'Next' (green), and 'Cancel' (white with a red border).

<b>Question</b>	Select three questions to which you will provide an answer. The questions are asked in the event that you forget your password.  You must select three different questions. You cannot repeat any questions/answers.
<b>Answer</b>	Type the answer to each question. If you forget your password, you will be required to answer the question correctly in order to recover your account. Be sure to select questions for which you will easily remember your answer. Answers are case sensitive.

## License Agreement

Review and accept the End User License Agreement (EULA) for ASCENDER. This agreement must be accepted in order to proceed.

Select **Accept**.

Click **Next**.

If you entered all required data, the Complete page opens.

□ Click **Finish**.

The Announcements page opens.

[Log on to TeacherPortal.](#)

To access TeacherPortal, you must log on. If you are a new user and do not have a user name, you must create a user name.

Returning teachers must re-register each year before logging on, as all TeacherPortal non-administrative user accounts are deleted at the end of each school year. Administrative user accounts are retained.

**WARNING:** If you have three unsuccessful attempts to log on (invalid user name/password combinations), the system locks out your account. If your account is locked out, please contact your campus administrator to have your account reset.

If the district has disabled TeacherPortal, the message "TeacherPortal is Unavailable" is displayed.

<b>User Name</b>	Type your user name. Your user name is not case-sensitive.
<b>Password</b>	Type your password. The typed text is hidden. Your password is case sensitive.

Click **Login**.

The Announcements page is displayed.

For security purposes, your password will expire periodically. If your password is expired, you are redirected to the [Password Expired](#) page before the Announcements page is displayed. Follow the instructions provided in the online Help for the Password Expired page.

[Reset your password.](#)

[Login Page > Reset Password](#)

The Reset Password page allows you to reset a forgotten password or change your password. To reset your password, you must know your staff ID, user ID, and the correct answer to one of your password hint questions; otherwise, you must contact your campus administrator to have your account reset.

- From the Login page, click **Reset Password**.

The Reset Password page opens.

- To exit the Reset Password function without saving any changes, click **Return to Login**.

## Reset Password

<b>Staff ID</b>	Type your six-digit district-assigned staff ID number.
<b>User Name</b>	Type the user name you created when you registered for TeacherPortal.

- Click **Next**.

If you entered the data correctly, the Security Question step opens.

## Security Question:

<b>Answer</b>	One of your hint questions is displayed, as established in your User Profile. Type the answer to your hint question exactly as it appears in your profile.
---------------	--

- Click **Next**.

If you entered the data correctly, the Create New Password step opens.

## Create New Password:

<b>Password</b>	Type a new password. You cannot reuse your last password. <ul style="list-style-type: none"> <li>• The password must be 8-46 characters using three of the following: uppercase letters, lowercase letters, numbers, and special characters</li> <li>• Your password is case sensitive.</li> </ul>
<b>Confirm Password</b>	Retype the password exactly as you typed it above. This step confirms that you typed your password as you intended.

Click **Finish**.

## Navigate TeacherPortal.

Navigation tools are located along the left side of the page, or in the top-right corner. Some tools function differently on mobile devices.

**MOBILE DEVICE USERS:** On a mobile device, tap  to access the side menu.

### District & Campus

The district and campus you are logged onto are listed at the top of the navigation bar. If you currently teach courses at more than one campus, select which campus to view.

### Teacher

Your name is displayed as it is entered at the district's Human Resources department.

### Navigation

Some pages and information are only available if enabled by the district.

**Attendance** - You can post and view attendance.

**Grades** - You can enter assignment grades, as well as cycle and semester grades.

**Reports** - You can access a variety of teacher reports.

**Discipline** - You can enter discipline referrals and view the status of existing referrals.

**Settings** - You can manage your user profile, class settings, and more.

**Admin** - If you are logged on with a district- or campus-level administrator account, you can access additional administrator pages.

## Other Tools

- Click to hide the left-side navigation bar. Click again to display the navigation bar.

- Various sections throughout TeacherPortal can be collapsed or expanded. Most data is expanded by default. Click  to hide the section from view. Click  to show the section.

**Print** button - Various pages throughout TeacherPortal can be printed. Use the print button instead of the browser's print option to ensure the best formatting of the content.

## Top-right

- Click to view ASCENDER TeacherPortal online Help.

- Click to log out of ASCENDER TeacherPortal.

# Teacher Guide to ASCENDER TeacherPortal

## TeacherPortal Setup

**Beginning of the school year:**

The following tasks should be done at the beginning of the year and not modified during the year.

(Optional) [Create course groups.](#)

[Settings > Manage Course Groups](#)

[Course Grouping Flow Chart](#)

This page allows you to group courses by semester, which allows you to enter grades, manage categories and assignments, and copy categories and assignments for multiple sections at the same time (e.g., if you teach multiple section of Algebra I) without having to switch from section to section.

**IMPORTANT:** You must group your courses at the beginning of the semester before any categories are added.

Once you have grouped the courses, all categories and assignments for the courses will match. The courses will be displayed as grouped on the following pages:

- [Grades > Assignment Grades](#)
- [Grades > IPR Comments](#)
- [Grades > Print IPR](#)
- [Reports > Class Roster](#)
- [Settings > Manage Assignments](#)
- [Settings > Manage Categories](#)

The following courses cannot be added to a group:

- A standards-based or elementary skills-based course. Only category-based (i.e., regular) courses can be grouped.
- A course that does not exist in the selected semester.
- A course that has already been added to another group, either for the current teacher or a prior teacher. The message “Exists in another group” will be displayed next to the course in the **Ineligible Courses** list.
- A course that has any categories already set up. The message “Already has categories” will be displayed next to the course in the **Ineligible Courses** list.

- A course that has any students who are in another course already added to the group.
- A self-paced course.

The following restrictions also apply:

- A course cannot be added to a group if the group has any categories already set up.
- If the course-section is part of a group, and the teacher for a course changes during the year, the new teacher will not be able to add the course to a group. The message “Exists in another group” will be displayed next to the course in the **Ineligible Courses** list.

[This can be resolved.](#)

To resolve this issue so that the new teacher can add the course to a group, a TeacherPortal administrator must delete the course from the original teacher's group as follows:

1. Log on to TeacherPortal and impersonate the new teacher.
  2. While impersonating the new teacher, go to [Settings > Manage Courses](#).  
Retrieve the course-section, and then click  to delete the course from the group.
  3. Click **Save**.
  4. Repeat for all applicable courses.
- You must be the class role 01 teacher (i.e., Teacher of Record) for the course in order to add the course to your group. Class role 02 and 03 teachers for the course cannot add the course to a group.

[If the class role 01 teacher becomes unavailable \(e.g., long-term leave\)...](#)

If the class role 01 teacher becomes unavailable (e.g., long-term leave), and a class role 02 or 03 teacher becomes responsible for the class, the courses must be un-grouped (i.e., the course must be deleted from the group). Otherwise, the class role 02 or 03 teacher will not be able to add any additional assignments for the class.

If the class role 01 teacher is unable to un-group his/her courses before leaving, an administrator can un-group the courses.

[Create assignment categories.](#)

[Settings > Manage Categories](#)

This page allows you to establish categories that describe the types of assignments you will use in the selected semester and course-section.

An initial set of categories, defined by the campus, is set at the beginning of the year. If you have an assignment that falls under a category that is not included in the list, you can create a new category, if allowed by the campus. The category you create is added to the master list and will be available for all teachers to use. The list of categories will continue to grow as you and the other teachers add categories.

For your selected categories, you must specify the type of weighting to use for calculating averages (percent-based, point-based, or multiplier-based). You can also assign your own category colors to enable color-coding of assignments on the Assignment Grades page.

From this page, you can also copy categories from one course to other course-sections.

This page is disabled for standards-based courses, because categories are not used for these courses.

This page should not be used for course-sections that are skills-based courses, because categories are not used for these courses.

Copy categories to other course sections...

### About grouped course-sections and teacher changes:

If the course-section is part of a group, and the teacher for a course changes during the year, the new teacher will not be able to make changes to categories. The following message will be displayed: "This course belongs to a group for another teacher. No category maintenance may be done except by that teacher."

In order to resolve this issue so that the new teacher can maintain categories for the course, a TeacherPortal administrator must delete the course from the group. Then, the new teacher can create a new group if needed.

The administrative user must do the following:

1. Log on to TeacherPortal and impersonate the new teacher.
2. While impersonating the new teacher, go to [Manage Courses](#). Select the course-section, and then click  to delete the course from the group. Repeat for all applicable courses.
3. Click **Save**.

Specify a course-section:

<b>Semester</b>	Select the semester to set up categories for.
<b>Course-Section</b>	Select the course-section to set up categories for.

Click **Retrieve**.

The available categories are listed under **Available Categories**, and your current category list for the selected course-section is displayed under **Selected Categories**.

Under **Weighting Type**:

Select the weighting type to use for the categories. You must use the same weighting type for all cycles in a semester.

<b>Percentage</b>	If selected, you must assign percentages to each category. The percentages must total 100%.
<b>Point</b>	Point values are determined when the assignment is created. They are not entered on the Manage Categories page. Point values for each category accumulate as assignments are added. When using point-based weighting, the categories are only used for grouping similar assignments. The calculation is based on the total points, not weighting.
<b>Multiplier</b>	If selected, you must provide a multiplier number (between 1-9) for each category. For multipliers greater than one, the individual assignment grades are counted multiple times.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type.

#### **NOTE:**

The category weight for current cycle can be changed for the current cycle, as long as grades have not been posted.

You cannot change the weighting type for the second semester of a two-semester course. The weighting type must be the same for all semesters of a course.

If you post an override cycle grade for a student even if there are no categories for the course, the weighting type is automatically set to percentage.

Each weighting type is only displayed if the campus allows the weighting type (or if the teacher has already started using the weighting type before the restriction was put in place). Any weighting types not allowed by the campus are not displayed. If you are using a weighting type that the campus decides to disallow partway through the current year, the following applies:

- You can continue to use the weighting type until the end of the current year. After the

current year, that weighting type will no longer be available.

- If you select another weighting type during the current year, you will not be able to reselect the disallowed weighting type.

If a category is specific to a particular weighting type (as specified at the campus level), the category is only displayed on this page if the appropriate weighting type is selected.

- Under **Available Categories** (left side):

The available categories are listed in alphabetical order.

If a category weight is locked (by campus admin), a lock icon  is displayed next to the category name. The weight specified by the campus must be used and cannot be changed.

- Click **Add Category Type** to add a new category to the list of available categories.

The **Add Category** section is displayed below the available categories.

**Weighting Type**

Weighting Type cannot be changed. Assignment grades exist.

**NOTE:** If the campus disallows teachers from adding categories, the **Add Category Type** button is disabled; you must use the categories established by the campus.

<b>Add Category</b>	<b>Category Name</b>	Type the name of the new category. You cannot type a name that is already included in the list of available categories. Type carefully to avoid spelling errors.
	<b>PIN</b>	Type your four-digit PIN.
<p><input type="checkbox"/> Click <b>Save</b>.</p> <p>The new category is displayed in the list of available categories in alphabetical order. You can then add it to your <b>Selected Categories</b> list.</p> <p><b>IMPORTANT:</b> Once a category is added to the list of available categories, it cannot be deleted from the list. If you add a category by mistake, you must contact your campus administrator to have it removed at the campus level. The category cannot be removed if it has assignments associated with it.</p>		

To add one of the **Available Categories** to the **Selected Categories** list, do one of the

following:

- Click-and-hold the category and drag it to the **Selected Categories** list.
- Click  for the category.
- Double-click the category.

The category is added to the bottom of the **Selected Categories** list. If there is a default or locked weight, that weight is copied to all open cycles.

Under **Selected Categories (right side)**:

All selected categories for the specified course-section are displayed for all cycles in the semester.

The table changes according to your selection in the **Weighting Type** field. For each cycle, the column heading is **% Weight**, **Points**, or **Multiplier** according to your selection.

<b>Cycle #</b>	If a cycle is closed, the column heading for the cycle displays <b>(closed)</b> , and the data cannot be changed.
<b>% Weight</b>	<p>If the <b>Weighting Type</b> is <b>Percentage</b>, type the percentage for each category. The percentages must total 100% for the cycle.</p> <p>If you select a category created at the campus level, and the campus entered a weight for that category, the weight is displayed in the <b>% Weight</b> field for the category. You can change the weight, unless the campus locked the weight for the category. If the weight is locked, the weight is displayed in the field and cannot be changed.</p>
<b>Points</b>	If the <b>Weighting Type</b> is <b>Point</b> , you cannot enter the total point values in the <b>Points</b> field. The field automatically displays the sum of the total points entered for all assignments for the category. For example, on the Administer Assignments page, if you enter five quizzes in the Quiz category, each with total points set to 100, the field displays 500.
<b>Multiplier</b>	If the <b>Weighting Type</b> is <b>Multiplier</b> , type a value between 1-9.

<p><b># Drop</b></p>	<p>For each cycle, type the number of items to be dropped during a cycle. For example, you may want to drop the student's three lowest grades from the homework category. The student's category average will always reflect the dropped grades.</p> <p>If you do not want to drop any grades from the category, type 0.</p> <p>Only non-excluded grades are dropped. If you exclude an assignment for a student on the <a href="#">Assignment Grades</a> page, the assignment is not counted as one of the grades that will be dropped.</p> <p>Note that you can specify on the Manage Assignments page if you do not want to drop a specific assignment within the category.</p> <p><b>WARNING:</b> If all assignments in the category do not have the same total points value (as entered on the <a href="#">Manage Assignments</a> page), the calculations for dropping a specified number of assignments for the category may result in an average that is different than expected. If the total points value varies, the grade with the lowest number of points may not necessarily be the lowest grade.</p>

### During the school year:

The following tasks should be done at the beginning of the year but can be modified during the year.

[Create seating charts.](#)

[Settings > Manage Seating Charts](#)

This page allows you to create and maintain seating charts for all of your classes. The seating chart lists the student name, gender, and ID. The seats are color coded by gender.

Student seats can be rearranged at any time.

You must create a new seating chart for each semester of a course. If the course is more than one semester, you can copy the seating chart to subsequent semesters.

**IMPORTANT:** It is recommended that you set the **Combine Courses in Attendance** field on your [Update Profile](#) page the way you want it for the semester before creating the seating chart.

### [About combining and uncombining courses](#)

If you change the setting of the **Combine Courses in Attendance** field, the data will be preserved as much as possible; however, you must then verify that your seating charts are correct for all periods, make the necessary changes, and then save the seating charts again.

If you change the **Combine Courses in Attendance** field during the semester, the following applies:

- If **Combine Courses in Attendance** was not originally selected and you have only one course per period, you created a seating chart, and then you selected **Combine Courses in Attendance**, the seating chart is not affected; however, you must re-save the seating charts for all periods.
- If **Combine Courses in Attendance** was not originally selected and you have some periods with multiple courses (each with its own seating chart), you created a seating chart, and then you selected **Combine Courses in Attendance**, the following occurs when you retrieve one of the periods on the Seating Chart Setup page:
  - Only the seating chart for the first course in the list is preserved.
  - The remaining students are displayed under Unassigned Students.
  - If the first course in the list has no students enrolled, no seating chart is preserved. You must recreate the chart.
- If **Combine Courses in Attendance** was originally selected and you have only one course per period, you created a seating chart, and then you cleared **Combine Courses in Attendance**, the seating chart is not affected, you must re-save the seating charts for all periods.
- If **Combine Courses in Attendance** was originally selected and you have some periods with multiple courses, you created a seating chart for students from multiple courses, and then you cleared **Combine Courses in Attendance**, the following occurs when you retrieve a period/course on the Seating Chart Setup page:
  - Only the chart dimensions of the seating chart for the first period/course you

attempt to edit is preserved.

- Only seats for students enrolled in the course are preserved.
- The remaining students are displayed under **Unassigned Students**.
- You must recreate the chart for the other courses that were previously combined in the period.

If a student transfers to the class, he is listed under **Unassigned Students**.

If a student drops the course, his seat is blank.

ASCENDER TeacherPortal - Teacher Guide

<b>Semester</b>	The current semester is displayed by default. You can select another semester.
<b>Period</b>	Select the period-course to create a seating chart for.  By default, the field displays the first period for which you have not posted attendance. <b>NOTE:</b> If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.

If a seating chart already exists for the period, the seating chart is displayed.

<b>Layout Options</b>	<p>Select a layout for the seating chart:</p> <p><i>Alphabetical by row</i> - Students are placed in alphabetical order by last name starting at the front-left corner of the room (from the teacher's perspective) and continuing horizontally, filling each seat until all students are placed. Empty seats are at the back of the room.</p> <p><i>Alphabetical by column</i> - Students are placed in alphabetical order by last name starting at the front-left corner of the room (from the teacher's perspective) and continuing vertically toward the back of the room, filling each seat until all students are placed. Empty seats are on the right side of the room.</p> <p><i>Numerical by row</i> - Students are placed in numerical order by student ID starting at the front-left corner of the room (from the teacher's perspective) and continuing horizontally, filling each seat until all students are placed. Empty seats are at the back of the room.</p> <p><i>Numerical by column</i> - Students are placed in numerical order by student ID starting at the front-left corner of the room (from the teacher's perspective) and continuing vertically toward the back of the room, filling each seat until all students are placed. Empty seats are on the right side of the room.</p> <p><i>Random</i> - Students are placed in random order. If there are more seats than students, the empty seats are at the back of the room. Every time you click <b>Preview Layout</b>, the random order changes; you can try multiple random layouts until you find one that works best.</p> <p><i>Blank</i> - A blank seating chart is displayed, and all students are listed either beside or below the chart (depending on the size of the chart). You can drag students from the <b>Unassigned Students</b> list to the seating chart. If you previously saved a seating chart and return to this page, the student seats are arranged according to your last saved layout; however, the <b>Layout Options</b> field is always set to <i>Random</i> by default. Even if you selected an alphabetical or numerical arrangement, you may have manually moved students; therefore, the program assumes the students may have been moved.</p>
<b>Rows Columns</b>	Type the number of rows (horizontal) and columns (vertical) for the seating chart. You can have up to 11 rows and 11 columns.

Click **Preview Layout**.

The seating chart is displayed according to the criteria entered.

**REMINDER:** When you click **Preview Layout**, the changes are not saved. You must type

your PIN and click **Save Seating Chart** to save the changes.

<b>Unassigned Students</b>	If there are more students enrolled in the class than seats available, the extra students are listed either beside or below the seating chart (depending on the size of the chart).
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.

- Each seat lists the student's name, gender, and student ID.
- You can click the student ID to view the [student's profile](#).
- The seats are color-coded by gender. Seats for females are shaded pink, and seats for males are shaded blue.

You can manually arrange students as needed by dragging a student to a new location.

- If a student is dragged to a new location that is currently occupied, the two students switch seats.
- If the student is dragged to an unoccupied location, his original location becomes unoccupied.
- You can drag students to and from the **Unassigned Students** list. If a student is dragged to a new location that is currently occupied, the two students switch places. The student from the list now has a seat, and the student who had a seat is now in the list.
- To re-sort the students using one of the layout options, select an option from the **Layout Options** field, and then click **Preview Layout**. The students are sorted according to the new layout.

### Save changes:

<b>PIN</b>	Type your four-digit personal identification number (PIN).
------------	--

Click **Save Seating Chart**.

### Print the seating chart:

Click **Print**.

The [Seating Charts Report Selection](#) page opens allowing you to make selections for running the report.

[Generate seating chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.

<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.		
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Create rubrics for grading assignments \(if enabled for campus\).](#)

The rubric feature is only available if enabled by the campus.

To use a rubric for grading an assignment, you must first create the rubric, and then associated the rubric with a particular assignment.

[Settings > Set Up Rubrics](#)

This page allows you to create rubric charts that can be used for grading assignments. A rubric chart is a set of criteria (i.e., skills) used for assessing a student's work or performance and includes levels of potential achievement (i.e., scores) for each criterion.

Once a rubric is created, you can associate the rubric chart with an assignment on [Settings > Manage Assignments](#). Then, the rubric will be available for the assignment on [Grades > Assignment Grades](#).

No rubrics found

Your existing rubric charts (i.e., rubric charts created by you) are listed. Otherwise, the message “No rubrics found” is displayed.

**Add a rubric chart:**

In the field next to the **Add Rubric** button, type a unique name for the new rubric chart, then click **Add Rubric**.

The new rubric chart is added to the **Available Rubrics** list.

□ Under **Editing Rubric: {Rubric Name}**:

A grid is displayed allowing you to enter criteria (i.e., skills) and scores for each criterion.

□ Add **Skills**:

To add skills to the rubric chart, type the first skill name, up to 50 characters, and click **Add Skill**. The skill is added to the grid, and a blank field is displayed allowing you to add another skill.

The screenshot shows a user interface for adding scores to a rubric. At the top left is a blue button labeled "Add Score". Below it is a section titled "Scores" with a large empty text input field. To the right of this field are two input fields for "Low Points" and "High Points", both containing the number "0". Below the "Scores" section is a section titled "Skills" with a yellow background. It contains a text input field with the word "Organization" and a blue "Add Skill" button. A red arrow points to the "Add Skill" button. At the bottom right of the interface, it says "Total Points: 0" and a blue "Save" button.

#### □ Add **Scores**:

Each rubric chart must have at least one column under **Scores**.

Establish a set of score names. For example, you could create the following set of five score names: Not Attempted, Below Average, Average, Above Average, and Exceeds Expectations.

To add a score, type the first score name (e.g., Not Attempted), up to 50 characters, and then click **Add Score**. The score is added to the grid, and a blank field is displayed allowing you to add another score.

Low Points	0	0	0	0
High Points	0	0	0	0

□ Enter **Low/High Points**:

For each score, use the **Low Points** and **High Points** fields to establish a range of possible points within each score. Or, you can assign a single point value for each score.

The fields can have up to three digits.

	Below Average	Average	Above Average	Exceeds Expectations
Low Points	1	7	13	19
High Points	6	12	18	20
Skills				
Organization				

**Example 1 (with score ranges):**

Within each score, you can establish a range of possible points:

The *Not Attempted* score may have **Low Points** and **High Points** both set to 0, because 0 points would be awarded if the student did not attempt the skill.

The *Below Average* score may have **Low Points** set to 1, and **High Points** set to 10, so a student who performed below average on the skill can earn between 1 and 10 points.

The *Average* score may have **Low Points** set to 11, and **High Points** set to 20, so a student who had average performance on the skill can earn between 11 and 20 points.

The *Above Average* score may have **Low Points** set to 21, and **High Points** set to 30, so a student who had above average performance on the skill can earn between 21 and

---

30 points. The highest score a student could receive would be 30.

The *Exceeds Expectations* score may have **Low Points** set to 31, and **High Points** set to 40, so a student who had above average performance on the skill can earn between 31 and 40 points. The highest score a student could receive would be 40.

In this example, if 10 skills were scored, the student could earn a maximum of 400 points for the assignment.

---

### **Example 2 (without score ranges):**

To assign a specific number of points to each score, type the number of possible points in the **Low Points** field and leave the **High Points** field blank. When you save, the **High Points** field will automatically be set to the value in the **Low Points** field.

The *Not Attempted* score may have **Low Points** set to 0, because 0 points would be awarded if the student did not attempt the skill. Leave **High Points** set to 0 or blank.

The *Below Average* score may have **Low Points** set to 1, because 1 point would be awarded if the student had below average performance for the skill. Leave **High Points** set to 0 or blank.

The *Average* score may have **Low Points** set to 2, because 2 points would be awarded if the student had average performance for the skill. Leave **High Points** set to 0 or blank.

The *Above Average* score may have **Low Points** set to 3, because 3 points would be awarded if the student had above average performance for the skill. Leave **High Points** set to 0 or blank. The highest score a student could receive would be 3.

The *Exceeds Expectations* score may have **Low Points** set to 4, because 4 points would be awarded if the student had above average performance for the skill. Leave **High Points** set to 0 or blank. The highest score a student could receive would be 4.

In this example, if 10 skills were scored, the student could earn a maximum of 40 points for the assignment.

Enter a score note:

(Optional) For each skill, type a note about the score as it relates to the specific skill, up to 255 characters. The note is used to further clarify the requirements for awarding points for the skill.

See [Notes on Special Characters](#) and [Copy/Paste From Other Documents](#).

**TIP:** You can expand the size of the fields by dragging the bottom-right corner of the field to the desired size. When you save the note, the field will return to its original size.

Scores must be entered in ascending order from left to right.

Scores cannot be out of sequence; however gaps can exist.

Click **Save**.

**Total Points** The highest possible number of points a student can earn for this assignment is calculated and displayed in the bottom-right corner. The number changes every time you save changes that affect the total possible points for the rubric chart.

To save a copy of the displayed rubric chart with another name (e.g., to use the rubric chart as a template for another rubric chart), type the new name in the field next to the **Save As** button, then click **Save As**.

The new rubric chart is added to the **Available Rubrics** list. The new rubric chart can be modified as needed.

### Edit a rubric chart:

- Under **Available Rubrics** (left), click  for the rubric chart you want to change.

The rubric chart opens under **Editing Rubric** (right). Modify the chart as needed, and then click **Save**.

#### NOTE:

If you attempt to edit a rubric chart that is in use, a message is displayed indicating the number of assignments using the rubric chart; however, you are not prevented from modifying some parts of the rubric chart:

- The skills cannot be changed.
- You cannot add a skill; the **Add Skill** button is not displayed.
- You must keep at least one column under **Scores**.
- The score note field can be modified.
- You can add scores, but you must maintain the same **Total Points**.

### Delete a rubric chart:

- Under **Available Rubrics** (left), click  to delete an existing rubric chart.
- You are prompted to confirm that you want to delete the rubric chart. Click **OK**.

**NOTE:** You cannot delete a rubric chart that is in use (i.e., associated with any assignment).

## Associate a rubric with an assignment:

- 
- In the **Scores** field, type the number of points earned by the student for each skill.

For your reference, the **Max Points per Skill** field displays the highest number of points for a skill, as indicated on the Rubric Setup page; however, you are not prevented from entering a score above this number.

- When all scores have been entered, click **Update Assignment Grade**.

The grade (i.e., the sum of all scores entered) is calculated and displayed in the grade field.

- Type your PIN and click **Save**.

**NOTES:**

- You can type a grade directly into the grade field even if a rubric chart is assigned to the assignment.
- When entering a score for a skill, you are not limited to the range specified in the rubric chart. For example, if the score range is 0-5, you are not prevented from typing 0 or 6.
- If the grade for the assignment should be zero, you must type 0 for one of the skill scores in the rubric chart.
- If you type a score for some skills but not all skills in the rubric chart, the sum of the scores entered is calculated and displayed in the grade field.

[Generate rubric report \(if enabled for campus\).](#)

There are two ways to access the rubric printing options:

- From the Manage Rubric Charts page, click **Print**.
- From the Reports menu, select **Rubrics**.

**Print the rubric chart:**

- Click **Print** to print a report of the displayed rubric chart.

The [Rubric Report Selection](#) page opens allowing you to make selections for printing the report.

This report prints a rubric chart which has been set up on [Settings > Manage Rubric Charts](#). You can print only the rubric chart (i.e., blank), or you can print the rubric chart with student grades for a particular assignment.

Specify report options:

<b>Rubric Name</b>	Select the rubric chart you want to print. Only rubric charts that have skills and scores already set up are listed.
<b>Title</b>	(Optional) Type a title for the report, up to 50 characters. If blank, the rubric chart name is used as the title.
<b>Print with grades</b>	Select to print the report with student grades. This field is only displayed if the selected rubric chart has already been used to grade an assignment.
	If selected, an additional field is displayed allowing you to select a course-section. Only course-sections that have a rubric chart set up are listed.
	<b>course-section</b> Once you select a course-section, another field is displayed allowing you to select the assignment that was graded with a rubric chart.
	<b>assignment</b> Once you select an assignment, a list of students in the course-section is displayed, along with their grade for the assignment.
	<b>This Student</b> Select for the students you want to print the rubric for. You can select <b>Check all</b> at the top of the column to select all students in the course-section.

☐ Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

## Manage Student Groups

### **Settings > Manage Student Groups**

This page allows you to create and maintain groups of students for reporting purposes. The student groups can be campus-wide and are not limited to a particular course-section. Special group reports are available to provide data for the student groups.

Teachers are given access by administrators to create student groups as follows:

- **No access:** (Teacher cannot create student groups.) If you do not have access, the Student Group Manager page is not listed in the menu.
- **Course-wide access:** (Teacher can create student groups that include only students enrolled in your courses.)
- **Campus-wide access:** (Teacher can create student groups that include any students at the campus.) If you do not have this access, an administrative user (impersonating you as the teacher) can create groups for you. Groups can only be created for teachers who have a TeacherPortal account.

Users can run group reports for their own groups, regardless of who created the group.

## The columns can be re-sorted.

The columns can be sorted according to your preferences.

- An up arrow ▲ indicates the column and order by which the table is currently sorted.
- If a column can be sorted, a sort box ⇅ is displayed in the column heading.
- To resort the list by another column heading, click ⇅ in the column heading. The column is sorted in ascending order, as indicated by ▲ in the column heading.
- To sort the column in descending order, click ▲ again. The sort arrow changes direction ▼.

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

- If attendance is already posted for the selected date-period-course, the attendance data is view only.
  - Student absences and tardies are highlighted, and you can click the comments icon  to view any comments associated with the absence.
  - If a student withdrew from the course since attendance was posted for the date, his attendance record is displayed.
  - If a student's enrollment date is after the selected attendance date, his attendance record is not displayed.
- If you teach multiple courses for the selected period, by default, all students in all courses are listed. This setting can be changed using the **Combine Courses in Attendance** field on Settings > Update Profile.
- New students are indicated with the “new” icon next to their student ID. The icon remains for one day only.

By default, all students are set to **Present**. You will see these options if your campus chooses to use **Remote Asynch** attendance, **Remote Sync** attendance, or **Both**.

*Present* - physically present in the classroom

*Remote Synch* - online at the time of class

*Remote Asynch* - will complete the assignment at a later time

As you mark students **Absent** or **Tardy**, the rows change color.

- Tardy students are shaded yellow.
- Absent students are shaded red.

If a student's absence is pre-posted (e.g., a scheduled band trip or a student who called in sick), the student is shaded gray, and the **Attendance** field displays the reason for the absence. Pre-posted absences are handled by the attendance clerk, so you are not able to mark attendance for the student.

The  icon is displayed next to the attendance, if the attendance clerk entered comments associated with a student's attendance for the date and period displayed.

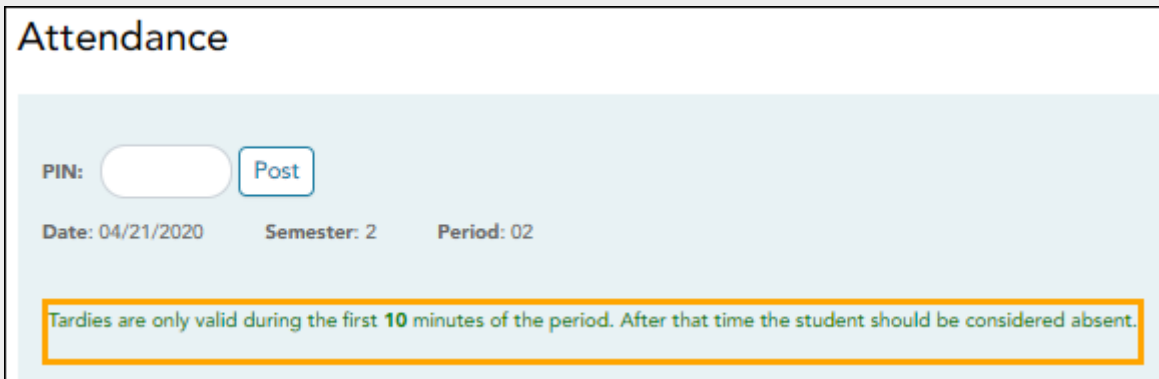

Click the icon to view the comments. The Comments window opens, and the comments are displayed. The date-time and user ID of the person who entered the comments are also displayed.

Click **Close** to close the Comments window.

- The **Absent** and **Tardy** fields are disabled during the ADA period, on the first day of school, and on the first day of enrollment.
- The **Absent** and **Tardy** fields are enabled during the ADA period if the student has a withdrawal reason due to a status change.

The **Tardy** field may not be displayed depending on campus attendance settings.

If the district allows tardies during the ADA period, the tardies may only be valid during a set number of minutes for the period. After this number of minutes has passed, the student should no longer be marked as **Tardy** and should be marked as **Absent**, although the program does not prevent you from marking a student as **Tardy** (except on the first day of semester 1). The number of minutes is determined by the district. If applicable, a message is displayed above the table indicating when tardies are valid.

Students who are on a track that does not meet on the selected date are listed; however, the **Absent**, **Tardy**, and **Present** fields are replaced by a message indicating that the date is not a membership day for the student.

Students whose first day (or re-entry day) is not the official first day of school cannot be marked absent during the ADA period on their first day. The **Absent** option is disabled.

<b>Grade</b>	The student's grade level is displayed.
<b>Course Section</b>	The course-section is displayed.

<b># Students</b>	The total number of students enrolled in this period is displayed at the bottom of the <b>Student ID</b> column.
<b>Print</b>	Click to print the attendance roster for one period or all periods. The <a href="#">Attendance Roster Report Selection</a> page opens allowing you to make selections for printing the Attendance Roster report.

## Post attendance:

- After you have recorded attendance for the course, review your input carefully.

Be sure to follow procedures established by the district for recording attendance.

When you are satisfied with your attendance input, you must post the data.

<b>PIN</b>	Type your four-digit personal identification number (PIN). For your convenience, the <b>PIN</b> box and <b>Post</b> button are displayed at the top and bottom of the attendance list. You can use either box to post attendance.  <b>NOTE:</b> Once attendance is posted the <b>PIN</b> box and <b>Post</b> button will be disabled.
------------	--

- Click **Post**.

If you indicated that all students are present (and no absences were previously entered by the attendance clerk), you are prompted you to confirm that all students are marked present.

All students are marked present. Please confirm.

- Click **Confirm** to confirm.

Attendance is posted.

[Generate attendance verification report.](#)

[Reports > Attendance Verification](#)

This report displays attendance for all of your students for a selected course-section and date range. You can view data for up to one semester. You can also generate a summary report that displays only totals for the selected date range.

The following codes are used:

- A - Excused absence
- S - School-related absences
- T - Tardy
- X - Truant

An asterisk next to the attendance code indicates that the absence or tardy occurred in a course other than the course the student is currently enrolled in (e.g., if he transferred from one course to another during the school year).

**NOTES:**

- Inservice work days are indicated with an I in the column heading.
- Saturday may be a valid attendance date, even if the course does not meet on Saturday. This may be used for bad weather makeup days.
- If you are printing the report for more than three weeks, you should set the printer orientation setting to landscape or the **Page Scaling** field to *Shrink to Printable Area*. If the *Shrink to Printable Area* setting is not enabled, the landscape orientation will accommodate up to six weeks plus the **Total** column per page. Additional weeks (up to one semester) can be generated by entering the appropriate dates in the **From Date** and **To Date** fields; however, the report will print on multiple sheets of paper with a **Total** column on each page.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.
<b>Course-Section</b>	Select the course-section and period for which to print the report.

<b>From Date To Date</b>	Enter the beginning and ending dates. Both dates must fall within the selected semester.
<b>Include Withdrawn Students</b>	Withdrawn students are not automatically included. Select the field to include withdrawn students in the report.
<b>Summary Only</b>	Select to display only totals for the selected date range. If not selected, the report lists all absences for the selected date range.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate attendance rosters.](#)

[Attendance > Attendance Rosters](#)

This page allows you to print attendance rosters for one course or all of your courses at one time. A signature line is provided at the bottom of each period-course.

<b>Date</b>	Type a date in the MMDDYYYY format, or click  to <a href="#">select a date from the calendar</a> .
<b>Semester</b>	The current semester is displayed by default. You can select another semester.
<b>Period</b>	Select the period-course for which you want to print the roster. Or, select <i>ALL CLASSES</i> to print rosters for all periods.
<b>Sorting Options</b>	Indicate if you want to sort the rosters by student ID, last name, first name, or course-section.

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate seating chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

[Generate class roster report.](#)

[Reports > Class Roster](#)

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student's birth date and contact information. The report can be exported in CSV

format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

## Grading tasks:

[Create assignments](#).

[Settings > Manage Assignments](#)

This page allows you to add assignments for your active courses, including extra credit assignments. You can also copy the assignments to other courses.

Categories must be established for the course on [Settings > Manage Categories](#) before you can add assignments.

Different fields are displayed according to the type of course selected (category-based (i.e., regular) courses and standards-based courses).

You cannot make changes to assignments once the cycle is closed.

Select the course-section you want to enter assignment grades for:

<b>Semester</b>	The current semester is displayed by default. You can select another semester.
<b>Cycle</b>	The current cycle is displayed by default. You can select another cycle.
<b>Course-Section</b>	Select the course-section you want to enter assignment grades for. The drop down lists the two-digit period and course name. The course number and section number are in parentheses. <b>NOTES:</b> If the course is marked as ready to post on <a href="#">Grades &gt; Cycle Grades</a> , the message "[READY]" is displayed next to the course. If course groups have been created on <a href="#">Settings &gt; Manage Course Groups &gt; Course Grouping</a> , the groups are listed, as well as the individual courses. Any group that does not have courses associated with it is not listed.

Click **Retrieve**.

The students and assignments are displayed according to your selections in the previous steps. Students are sorted by last name, unless you have specified a custom sort order on [Settings > Arrange Student Order](#).

You can further filter the students and assignments displayed:

<b>Category</b>	Select the category to enter assignment grades for, or select <i>All Categories</i> . These categories are set up on <a href="#">Settings &gt; Manage Categories</a> .  If a color has been assigned to the category on the Manage Categories page, the assigned color is displayed.
<b>Assignment</b>	Select the assignment you want to enter grades for, or select <i>All Assignments</i> .
<b>Student</b>	Select the student you want to filter by, or select <i>All Students</i> .

The grid lists all students currently enrolled in the course-section and the assignments according to your selections.

[The columns can be re-sorted.](#)

The columns can be sorted according to your preferences.

- An up arrow  indicates the column and order by which the table is currently sorted.
- If a column can be sorted, a sort box  is displayed in the column heading.
- To resort the list by another column heading, click  in the column heading. The column is sorted in ascending order, as indicated by  in the column heading.
- To sort the column in descending order, click  again. The sort arrow changes direction .

If you sort by the last name column, the table sorts by last name, then first name. If you sort by the first name column, the table sorts by first name, then last name.

**NOTE:** Sorting the columns overrides the custom sort order established on the Arrange Student Order page. However, if you leave this page and return, the students are displayed in your custom sort order. (This does not apply on the Post/View Attendance page.)

<b>Student ID</b>	The student's ID is displayed. Click the student ID to view the <a href="#">student's profile</a> .
	The Star of Life icon is displayed for any student who has medical circumstances you should be aware of. To view details, click the student ID to view the <a href="#">student's profile (Medical Alerts section)</a> .

Next to the student's name, click the icon to view or add a course note about the student. The note icon is yellow  if a course note already exists for the student.

The Student Course Note pop-up window opens allowing you to enter or update comments.

The student's name is displayed. Verify that you are adding/updating the note for the correct student.

Under **Saved Notes**:

Any existing notes for the student are listed. You can view all notes for courses to which you have access.

**Cat:** Note category codes:

- AT - Attendance
- DS - Discipline
- GN - General
- HL - Health
- SP - Supplies

**Note:** If you created the note, you can update it, up to 3269 characters.

**Author:** The last name of the person who entered the note is displayed based on the user login.

**Last Updated:** The date on which the note was last updated is displayed.

**Delete:** Select to delete an existing note. You can only delete a note if you created it, or if you are the Teacher of Record for the course. For example, the Teacher of Record can delete a note entered by an Assistant Teacher for the course.

Under **Add Note**:

To add a new note, select the category code indicating what the new note is related to, such as AT for attendance.

In the text box, type the new note, up to 3269 characters per note.

Click **Save**.

**NOTE:** The [Student Notes report](#) provides a report of these course notes.

Beside each student's name is the transfer icon  (i.e., a gray T) indicating that he is not a transfer student. If a student transfers into the class, the red transfer icon  is displayed next to his name.  
**NOTE:** The student will only have a red T  if he is transferring from one section to another section within the same course. Otherwise the T will remain gray.  
 If a student transfers into the course, you must accept the student into the course and enter his walk-in transfer average and weight. The campus, student ID, semester, and cycle must all be the same for the average to transfer.

To accept the transfer student into the course-section, click  .  
 The Transfer Walk-In Average window opens.

MUELLER, MONTANA J

**Due Date:**  

**From:** Onassis, Jacqueline K  
4216-31

**Average:**

**Weight:**  %

**Date:** The student's transfer date is displayed by default. You can type over the date in the MMDDYYYY format. Or, click  to [select a date from the calendar](#).

**From:** The teacher name, course number, and section are displayed for the course from which the student transferred. This data is only displayed if the student transferred from a different section of the same course and has a transfer average.

**Average:** The student's transfer average is displayed if available. Otherwise, you can type the student's walk-in average.

This is the student's average in the class from which he transferred. You can enter a numeric grade or an alphabetical (ABCD or ESNU) grade.

**NOTE:** If a student transferred from a course that posts letter grades to a course that posts numeric grades, and a letter grade is entered for his transfer average, the student's working cycle average is displayed as a numeric grade.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type for an explanation of calculating averages for transfer students.

**Weight:** The field displays 0 for a transfer student who has not yet been accepted into the class.

To accept the student into your class, type the weight you want to apply to the student's transfer average. For example, if a student transferred three weeks into a six-week cycle, you may want to enter a weight of 50%. The maximum weight you can enter is 100.

The student's transfer icon remains red until a weight is entered and saved.

Once you enter and save a weight, the student's transfer icon turns blue . The blue icon remains until the end of the semester.

Click **Ok**.

If you entered and saved the transfer average data for the student, his walk-in average is calculated in his working cycle average.

**NOTE:** The changes are not actually saved until you type your PIN and click **Save Grades**.

**Clear:** Clear all data previously entered for the transfer student.

**NOTE:** Any course assignments that were due prior to the student's transfer date are excluded for the student, and the Exclude indicator  is displayed for the assignments. You can override the exclusion if you want the transfer student to complete an assignment that was due prior to his transfer date.

To override the exclusion, click , clear the **Exclude** field. Click **OK** and save.

**NOTE:** For standards-base courses, accepting a transfer student is a manual process. The transfer icon is not displayed.

**Calculating the average for a transfer student:**

If a student transfers into the course during a cycle, the following calculations are used to determine his working cycle average:

**Formula for transfer student:**

For the transfer grade, multiply the Transfer Average by the Transfer Weight:

$$\text{Transfer Average} \times \text{Transfer Weight} = \text{Transfer Value}$$

**For example:**

1. The student's Transfer Average is 74.

The student's Transfer Weight is 55%.

$$74 \times 55\% = 40.7$$

The student's Transfer Value is 40.7.

Calculate the average of the student's assignment grades (for the remainder of the cycle) using the steps described above under Percent-based, Point-based, or Multiplier-based.

2. **For example:**

The percent-based example above shows a Working Cycle Average of 87.

Calculate the weight for the Working Cycle Average:

$$100\% - \text{Transfer Weight} = \text{Working Cycle Average Weight}$$

**For example:**

3. The student's Transfer Weight is 55%.

$$100\% - 55\% = 45\%$$

The student's Working Cycle Average Weight is 45%.

Calculate the Working Cycle Average Value.

$$\text{Working Cycle Average} \times \text{Working Cycle Average Weight} = \text{Working Cycle Average Value}$$

**For example:**

4. The student's Working Cycle Average is 87.

The student's Working Cycle Average Weight is 45%.

$$87 \times 45\% = 39.15$$

The student's Working Cycle Average Value is 39.15.

Take the sum of the Transfer Value and the Working Cycle Average Value.

$$\text{Transfer Value} + \text{Working Cycle Average Value} = \text{Actual Working Cycle Average}$$

**For example:**

5. The student's Transfer Value is 40.7.

The student's Working Cycle Average Value is 39.5.

$$40.7 + 39.5 = 80.2$$

The student's Actual Working Cycle Average is 80.

If a student transferred from a course that posts letter grades to a course that posts numeric grades and a letter grade is entered for his transfer average, the grade conversion table is used to determine the numeric value.

For campuses that use curriculum and test taking systems (e.g., EdInstruction and Eduphoria), click the icon to import a data file that only includes the student's ID, assignment grade, first name, and last name.

**NOTE:** The import function is not available on mobile devices.

- Only .csv and .txt files can be imported. The text file must be comma-separated data with one student per row.
- Attempting to import for students not in the course will create exceptions errors that cause the import to fail. Deleting these rows should allow the import to be successful.
- You can only import assignment grades for existing students.
- You can only import grades where students has blank grades for the particular assignment. If the student already has grades, the data is displayed in red and crossed out.

**Steps for importing the data file:**

Click  to import grades for the assignment.

The Import Assignment Grades window opens allowing you to upload the data file, review the data, and import the file.

Under **Step 1**, click **Browse** to select the data file. Locate and open the file.

The file name is displayed.

Click **Upload File**.

When the upload is complete, the “Success” message is displayed indicating the name of the uploaded file.

Under **Step 2**, review the default file format and adjust the columns of your data if necessary:

Under **To Column**, the default file format is listed. The format is determined according to the type of data found in the uploaded file. For example, a six-digit string of numbers is assumed to be the student ID, and a string of up to three characters is assumed to be an assignment grade. There are four columns:

- Student ID
- Assign Grade
- First Name
- Last Name

**NOTE:** For the six-digit student ID, include all leading zeros.

Under **From Column**, make adjustments as needed.

For example, if the default file format has the first name before the last name, and you want the last name before the first name, you can change the columns under **From Column** accordingly (i.e., change column 3 to 4, and change column 4 to 3).

**NOTE:** The order of the first and last names is not important when uploading this file.

If you assign the same column number to more than one column, the message “duplicate” is displayed by the duplicated column. You must correct this before proceeding.

As you make any changes under **Step 2**, the data displayed under **Step 3** changes accordingly. Review the data under **Step 3** before importing the file.

When the data under **Step 3** is being refreshed, the message “validating” is displayed. Wait until the message goes away.

• If errors are encountered, the records with errors are displayed in red with a strikethrough. The number of errors found is listed below the grid. Errors may include mismatched or invalid data.

• Currently, the only acceptable error is an error due to the student already having a grade for the assignment. Exception errors due to invalid records will cause the import to fail.

When you are satisfied with the data under **Step 3**, click **Import Now** under **Step 4**. The data is imported, and the assignment grade fields on the Assignment Grades page are populated with data from the import file.

The **Import Now** button is disabled if there are no valid records to import.

**NOTE:** If the course has any withdrawn students, the import file has a record for the withdrawn students. Therefore, you must select **Show withdrawn students** on the Assignment Grades page to import the grade for the withdrawn students. If you do not select **Show withdrawn students**, the import file will generate errors for the withdrawn students.

<b>Assignments per Page</b>	<p>By default, the page displays only the first five assignments. You can change the number of assignments displayed.</p> <p>To print all assignments, select <b>All</b> from the drop-down menu or select the number of specific assignments to be printed.</p> 
<b>Previous/Next</b>	<p>If there are more assignments, use the buttons to view the other assignments.</p>

Enter the grades in the grid.

### NOTES:

- Only whole numbers can be entered for numeric grades.
- To add extra credit points, you can add points to the assignment grade.
- When you enter or change a grade, the table cell turns gray to indicate that the grade was changed but not yet saved. Once you save the assignment grades, the cell is no longer gray.
- If you type an invalid grade, such as a letter grade that does not have a conversion value, the cell is shaded red. You must correct the entry before you can save the grades.
- Dropped grades are italicized.
- If the course is set up for alphabetical or ESNU grade posting, you can type letter grades or numeric grades. If you type a letter grade, it is automatically converted to a numeric grade for calculating the working cycle average, according to the conversion values set by the campus.
- Other codes can be typed in place of a grade:
  - M - Missing
  - I - Incomplete (If you type I for any grade, the student's working cycle average will be I until a grade is entered.)
  - X - Excluded (The X functions the same way as clicking the note icon and selecting **Exclude** from the Grade Properties window.)
  - Only one shortcut code can be entered per assignment grade.
- If the campus has disabled posting of grades for prior cycles, you cannot make changes to assignment grades for previous semesters-cycles. The **Save Grades** button is disabled.

- Grades can be entered in the shaded fields for the selected skills on the Assignment Grades page. The field will change from gray to white and the grades will print on the report card. However, grades should not be entered in the shaded fields for the selected skills for the **Semester** and **Cycle** that appear gray on the Assignment Grades page.
- You can navigate through the grade fields [using the keyboard](#)

Press ENTER after you type each grade to move down the list to the next student. You can press SHIFT+ENTER to move up the list. You can also press the up and down arrow keys to move up and down the list.

Press TAB to move across the list to the next assignment. You can press SHIFT+TAB to move back to the left.

.

Next the grade field, click  to open the Grade Properties window where you can add comments or indicators (e.g., excluded, late, re-do, or accommodated) associated with an assignment.

The dialog box is titled "Grade Properties" and has a close button (X) in the top right corner. It displays the student's name "NELSON, OLIVIA A-992811" and the assignment "Australia ES Journal". Below this, there are four checkboxes: "Exclude", "Redo", "Late", and "Accommodated". A large text input field is provided for comments. At the bottom left, there is a checkbox labeled "Print Comment". At the bottom right, there are two buttons: "Cancel" and "OK".

Enter comments and/or select the appropriate indicator(s).

If there is no grade for the assignment, it cannot be marked as late or re-do.

The  icon is displayed if the assignment grade is excluded (e.g., for a transfer student). The grade will continue to be displayed in the field.

**Print comment** Select if you want the indicators and/or comments to print on the student's IPR and display to parents in ParentPortal.

Click **OK** to close the window.

**WARNING:** Your comments and/or selections are not actually saved until you type your PIN and click **Save** to save all data on the Assignment Grades page.

The following icons are displayed in the grade fields according to the comments and/or indicators entered:

Indicators:

-  - Excluded
-  - Late (not excluded)
-  - Re-do (not excluded)
-  - Accommodated

Notes:

-  - Excluded with comments
-  - Late or re-do with comments
-  - Comments only
-  - No comments

**NOTE:** If an assignment is excluded for a student, and you have entered a number in the **# Drop** field on [Settings > Manage Categories](#) (indicating that you want to drop a specified number of assignments for a category), the assignment grade does not count toward the number that will be dropped. Only non-excluded grades are dropped.

Extra credit assignments add points to the average for the category selected. If a student has no grade or a zero for the extra credit assignment, it does not count against him when his average is calculated.

### Calculations for extra credit assignment:

**IMPORTANT:** See [Calculate Averages](#) for additional information.

### Percent-based weighting:

If the student has extra credit points, include the extra credit (EC) points in the Total Points Earned.

(Points Earned 1 + Points Earned 2 + Points Earned 3 + EC) = Total Points Earned

### For example:

The Homework category has three assignments. The student earned a 70/100, 80/100, and 90/95 for those assignments. He also has 10 points for the extra credit assignment.

$$(70 + 80 + 90 + 10) = 250$$

In this case, the Total Possible Points for the Homework category is 295.

$$250 / 295 = .847$$

---

The student's average for the Homework Category is 85.

**Points-based weighting:**

If the student has an extra credit assignment, add the points for the extra credit (EC) assignment to the Category Points:

Category Points + EC = new Category Points

**For example:**

The Homework category has three assignments, each worth 50 points. The student earned a 40, 45, and 50 for those assignments.

$$40 + 45 + 50 = 135$$

The student's Homework Category Points is 135. The student was awarded 5 points for a homework extra credit assignment.

$$135 + 5 = 140$$

In this case, the Total Possible Points for the Homework category is 150.

$$140 / 150 = .933$$

The student's average for the Homework Category is 93.

**Multiplier-based weighting:**

If the student has an extra credit assignment, add the points for the extra credit (EC) assignment to the Actual Category Points:

Actual Category Points + EC = new Actual Category Points

**For example:**

The student's Homework Actual Category Points is 240. The student was awarded 5 points for a homework extra credit assignment.

$$240 + 5 = 245$$

In this case, the multiplier for the Homework category is 2.

$$245 \times 2 = 490$$

The Homework category has three assignments, each worth 100 points.

$$100 + 100 + 100 = 300$$

$$300 \times 2 = 600$$

$$490 / 600 = .816$$

The student's average for the Homework category is 82.

**ANOTHER OPTION:** If you want to give an extra credit assignment that will be included in the cycle average for the students who do the assignment (but not for those who do not do it), create a regular assignment (not extra credit), and then exclude the grade for all students who do not complete the assignment.

### Add extra points to an assignment:

[Generate seating chart report.](#)

[Reports > Seating Charts](#)

This report prints a teacher's seating charts for all periods or one period. For each period, the seating chart is displayed followed by a list of students who are not assigned to seats. The seating chart lists the student name, gender, and ID.

If printed for all periods, each period prints on a separate page.

**NOTE:** If that field has been changed, and the seating charts have not been re-saved on [Settings > Manage Charts](#) since the setting was changed, a warning message is displayed when the report is generated indicating that the reports will not be accurate until the

Manage Seating Charts page has been re-saved. You must review the seating chart for each period on the Manage Seating Charts page, make any necessary changes, and then re-save each chart.

Specify report options:

<b>Semester</b>	The current semester is displayed. You can select a different semester.	
<b>Period</b>	Select the period-course(s) to print the seating chart for, or select <i>ALL CLASSES</i> to print seating charts for all periods.  If <b>Combine Courses in Attendance</b> is selected on your <a href="#">Settings &gt; Update Profile</a> page, the courses are combined by period.	
<b>width</b>	Select the width setting for the report.	
	<b>Fixed Seat Width</b>	Select to print a report in which all seats are the same width.  This setting works for small and average-size classes. For larger classes, some seats may not print on the page.
	<b>Auto-Adjusted Seat Width</b>	Select to print a report in which each column is adjusted to the student name. Each column is only wide enough to accommodate the longest name in the column; therefore, some columns are wider than others. This setting is a better option for larger classes.
	For either width setting, you can adjust the orientation when you print. Select <b>Landscape</b> to increase the number of students that fit on the page.	
<b>Show Pictures</b>	Select to display student photos in the seating chart. Photos are only available if they have been added by the district.	

Click **Generate**.

- The report opens in a new window, and you can print the report from that window.
- The report selection page remains open on your desktop.

There are two ways to access the rubric printing options:

- From the Manage Rubric Charts page, click **Print**.
- From the Reports menu, select **Rubrics**.

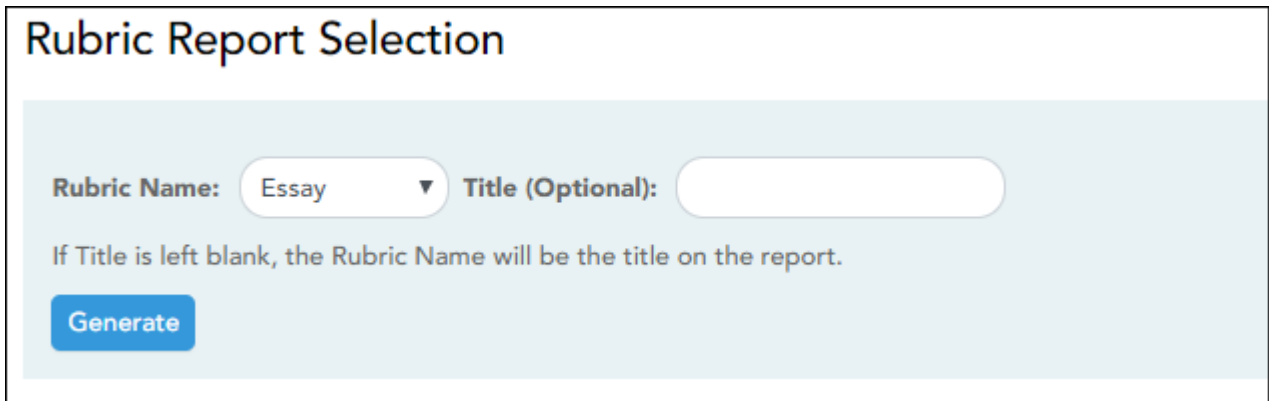

**Print the rubric chart:**

- ❑ Click **Print** to print a report of the displayed rubric chart.

The [Rubric Report Selection](#) page opens allowing you to make selections for printing the report.

This report prints a rubric chart which has been set up on [Settings > Manage Rubric Charts](#). You can print only the rubric chart (i.e., blank), or you can print the rubric chart with student grades for a particular assignment.

- ❑ Specify report options:

<b>Rubric Name</b>	Select the rubric chart you want to print. Only rubric charts that have skills and scores already set up are listed.
<b>Title</b>	(Optional) Type a title for the report, up to 50 characters. If blank, the rubric chart name is used as the title.

<b>Print with grades</b>	Select to print the report with student grades. This field is only displayed if the selected rubric chart has already been used to grade an assignment.		
	If selected, an additional field is displayed allowing you to select a course-section. Only course-sections that have a rubric chart set up are listed.		
	<b>course-section</b>	Once you select a course-section, another field is displayed allowing you to select the assignment that was graded with a rubric chart.	
	<b>assignment</b>	Once you select an assignment, a list of students in the course-section is displayed, along with their grade for the assignment.	
	<b>This Student</b>	Select for the students you want to print the rubric for. You can select <b>Check all</b> at the top of the column to select all students in the course-section.	

Click **Generate**.

[Generate class roster report.](#)

[Reports > Class Roster](#)

This report provides a blank class roster by semester and course, including a list of students enrolled in the course and up to 50 blank columns. You can choose the sort order and whether to include the student’s birth date and contact information. The report can be exported in CSV format.

If you print the report for a course group, the **Course Section** column is included allowing you to identify the course-section in which the student is enrolled.

Beside each student's name is the transfer icon T (i.e., a gray T) indicating that he is not a transfer student. If a student transfers into the class, the red transfer icon T is displayed next to his name.

**NOTE:** The student will only have a red T if he is transferring from one section to another section within the same course. Otherwise the T will remain gray.

If a student transfers into the course, you must accept the student into the course and enter his walk-in transfer average and weight. The campus, student ID, semester, and cycle must all be the same for the average to transfer.

- To accept the transfer student into the course-section, click **T**.

The Transfer Walk-In Average window opens.

**Date:** The student's transfer date is displayed by default. You can type over the date in the MMDDYYYY format. Or, click to [select a date from the calendar](#).

**From:** The teacher name, course number, and section are displayed for the course from which the student transferred. This data is only displayed if the student transferred from a different section of the same course and has a transfer average.

**Average:** The student's transfer average is displayed if available. Otherwise, you can type the student's walk-in average.

This is the student's average in the class from which he transferred. You can enter a numeric grade or an alphabetical (ABCD or ESNU) grade.

**NOTE:** If a student transferred from a course that posts letter grades to a course that posts numeric grades, and a letter grade is entered for his transfer average, the student's working cycle average is displayed as a numeric grade.

See the [Calculate Averages guide](#) for an explanation of calculating averages for each weighting type for an explanation of calculating averages for transfer students.

**Weight:** The field displays 0 for a transfer student who has not yet been accepted into the class.

To accept the student into your class, type the weight you want to apply to the student's transfer average. For example, if a student transferred three weeks into a six-week cycle,

you may want to enter a weight of 50%. The maximum weight you can enter is 100.

The student's transfer icon remains red until a weight is entered and saved.

Once you enter and save a weight, the student's transfer icon turns blue . The blue icon remains until the end of the semester.

Click **Ok**.

If you entered and saved the transfer average data for the student, his walk-in average is calculated in his working cycle average.

**NOTE:** The changes are not actually saved until you type your PIN and click **Save Grades**.

**Clear:** Clear all data previously entered for the transfer student.

**NOTE:** Any course assignments that were due prior to the student's transfer date are excluded for the student, and the Exclude indicator  is displayed for the assignments. You can override the exclusion if you want the transfer student to complete an assignment that was due prior to his transfer date.

To override the exclusion, click , clear the **Exclude** field. Click **OK** and save.

**NOTE:** For standards-base courses, accepting a transfer student is a manual process. The transfer icon is not displayed.

### **Calculating the average for a transfer student:**

If a student transfers into the course during a cycle, the following calculations are used to determine his working cycle average:

#### **Formula for transfer student:**

	<p>For the transfer grade, multiply the Transfer Average by the Transfer Weight:</p> $\text{Transfer Average} \times \text{Transfer Weight} = \text{Transfer Value}$ <p><b>For example:</b></p> <p>1. The student's Transfer Average is 74.</p> <p>The student's Transfer Weight is 55%.</p> $74 \times 55\% = 40.7$ <p>The student's Transfer Value is 40.7.</p>
	<p>Calculate the average of the student's assignment grades (for the remainder of the cycle) using the steps described above under Percent-based, Point-based, or Multiplier-based.</p> <p>2. <b>For example:</b></p> <p>The percent-based example above shows a Working Cycle Average of 87.</p>
	<p>Calculate the weight for the Working Cycle Average:</p> $100\% - \text{Transfer Weight} = \text{Working Cycle Average Weight}$ <p><b>For example:</b></p> <p>3. The student's Transfer Weight is 55%.</p> $100\% - 55\% = 45\%$ <p>The student's Working Cycle Average Weight is 45%.</p>
	<p>Calculate the Working Cycle Average Value.</p> $\text{Working Cycle Average} \times \text{Working Cycle Average Weight} = \text{Working Cycle Average Value}$ <p><b>For example:</b></p> <p>4. The student's Working Cycle Average is 87.</p> <p>The student's Working Cycle Average Weight is 45%.</p> $87 \times 45\% = 39.15$ <p>The student's Working Cycle Average Value is 39.15.</p>

Take the sum of the Transfer Value and the Working Cycle Average Value.

Transfer Value + Working Cycle Average Value = Actual Working Cycle Average

**For example:**

5. The student's Transfer Value is 40.7.

The student's Working Cycle Average Value is 39.5.

$$40.7 + 39.5 = 80.2$$

The student's Actual Working Cycle Average is 80.

If a student transferred from a course that posts letter grades to a course that posts numeric grades and a letter grade is entered for his transfer average, the grade conversion table is used to determine the numeric value.

[Enter discipline referrals.](#)

[Discipline > Discipline Referrals](#)

This page allows you to view and enter discipline referrals. The referrals are submitted to an administrator for review and further action. The page is only available if the campus allows teachers to enter referrals in TeacherPortal; otherwise, the Discipline menu is not displayed.

**NOTE:**

You can only view your own referrals. If you are logged on to TeacherPortal as an administrator, you cannot see a teacher's entered referrals on this page; however, you can view your own referrals.

Inquiry-only users cannot submit referrals.

Your existing referrals for the school year are listed, as well as the following statistical data:

<b>Draft</b>	The number of referrals you have created but not submitted is displayed.
<b>Pending</b>	The number of referrals you have submitted that are awaiting review and further action from an administrator is displayed.

<b>Reviewed</b>	The number of submitted referrals that have been reviewed by an administrator, for which the administrator is taking no further action, is displayed.
<b>Completed</b>	The number of submitted referrals that have been reviewed by an administrator, and for which further action was taken, is displayed.

Up to five referrals are displayed at a time. If more referrals exist, you can page through the list to see the others.

To retrieve a referral for a specific student and/or a specific status, do one or more of the following, or leave all fields blank to retrieve all referrals sorted by status:

<b>Student ID</b>	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
<b>Student Name</b>	Begin typing the student's name in one of the following formats: <ul style="list-style-type: none"> <li>• Last name, comma, first name</li> <li>• Last name initial, comma, first name initial</li> </ul> As you begin typing the name, a drop-down list displays students whose names match the letters you have typed. From the drop-down list, select the student.
<b>Status</b>	Select a status to view only referrals for the selected student with that status. Or, select ALL to see all referrals for the selected student.

Click **Search**.

The referrals grid is redisplayed according to the criteria specified.

	Click to view or edit the details of a referral. The <b>Record Details</b> section is displayed.
	Click to print the discipline referral. The report opens in a new window, and you can print the report from that window.
	Click to delete the referral. You are prompted to confirm that you want to delete the referral. Click <b>OK</b> .

Only *Draft* and *Pending* referrals can be updated or deleted. The *Reviewed* and *Completed* referrals can only be viewed and printed.

**Enter or update a referral:**

- Click **Add Referral**.
- Or, click  to edit an existing referral.

The **Record Details** section is displayed.

- Under **Record Details**, retrieve the student(s) involved in the incident:

<b>Student ID</b>	Begin typing the student's ID. As you begin typing the ID, a drop-down list displays students whose student ID matches the numbers you have typed. From the drop-down list, select a student.
