# Manage Elementary Skills-Based Report Cards - Step 1

## Admin > Manage Elementary Skills-Based Report Cards

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page allows you to set up report cards that teachers can print from the Grades menu. For each report card, you select the components that you want to print on the report card.

Each course is associated with a report card, so the report card options are applied to the course.

This is the first of two pages. On the Step 2 page, you will select the skills that will be assessed on the report card.

**NOTE:** You must specify a logo in the **Choose District Logo** field. Otherwise, the message “No logo files found” is displayed, and the changes to the page are not saved.
