(1004-36) ENGLISH 4

Update data:

Teachers with Course Groups	Select the teacher currently assigned to the group.
Eligible Course Groups	The selected teacher's current groups are listed. Below each group name are the courses associated with the group. Select a group.

Move Group to this Instructor

There are three possible situations that can occur:

- If the selected teacher is the teacher for all of the courses listed in the selected group, the group cannot be moved to another teacher and following message is displayed: "This group is already with the correct teacher. No teacher exchange necessary."
- If the courses in the selected group are assigned to multiple teachers, the group cannot be moved to another teacher, and the following message is displayed: "Multiple teacher found. Cannot exchange this group." In this case, an administrative user can remove a course from a group for a teacher on Settings > Manage Courses.
- If the selected teacher is no longer the teacher for any of the courses listed in the selected group, and another teacher now teaches all of those courses, the new teacher for the courses is listed under **Move Group to this Teacher**, and the **Move** button is displayed next to the new teacher's name.

NOTE: You will not receive not a prompt to confirm you want to move data. Before clicking **Move**, ensure moving the group to another teacher is what is intended.

☐ Click **Move** to move a group to the teacher who is currently assigned to the courses.
