This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This page is the first step in viewing the Admin Student Grades page. You must select a specific student at a specific campus before viewing the Admin Student Grades page.

Although this page is for administrative users, the page can be used to run the Admin Student Grades report for a student group by any user who has existing groups. If you are running the group report, the page title is Admin Student Grades - Find Student From Group. Also, the **Student Groups** field is displayed instead of the student search options.
