## Reports > Missing Averages

This page is only available to users who log on to TeacherPortal with a district- or campus-level security administrator user ID.

This campus report lists teachers who have students with no working cycle average. You can run the report with or without listing the students who are missing averages. The data is sorted by teacher, course, and section, and includes the total number of students who do not have averages, and the teacher's course-sections.

Students in non-graded courses, and courses with zero max seats are not included.

### Generate the report:

Specify report options:
