# Copy Assignments

## Settings > Manage Assignments

Once you establish the assignments for a course on [Settings > Administer Assignments](#), you can copy the assignments to other course-sections.

- If you are copying assignments for the current semester-cycle, the entire assignment record is copied, including the assignment date and due date.
- If you are copying assignments to a future semester-cycle, the assignment record is copied without the assignment date and due date.

This page is only accessible from the Manage Assignments page.
