Table of Contents

You may find extracted or merged records containing incomplete or inaccurate information. Use the State Reporting fall maintenance pages to update and correct the data saved in the district database (i.e., frozen data). These pages provide many of the rules defined in the TWEDS to help ensure that the data entered will be accepted.

NOTE: Data on these pages is updated every time data is extracted, including data that is manually entered.

NOTE: You cannot maintain data on maintenance pages while running an extract; a warning message is displayed on all fall maintenance pages indicating that the extract is in progress, and the **Save** button is disabled.
