Core Collection: Residential Facilities (RF) Tracker Submission

The Residential Facility (RF) Tracker is a yearly submission that tracks information for students with disabilities who reside in residential facilities within the geographic boundaries or jurisdiction of an LEA. An RF is a facility that provides 24-hour custody or care of students who reside there for detention, treatment, foster care, or any non-educational purpose.

NOTES:

• The ASCENDER Registration pages in this document are used to track ANY student who enters a residential facility, not just the students included in the RF Tracker submission. Summer PEIMS will also be using these fields to track attendance.

• RF Tracker interchanges are only created when the student's special education entry/exit dates and RF entry/exit dates overlap.

For example:

Special Ed Entry Date	RF Entry Date	Interchange
Entry Date = 9/1	Entry Date = 9/1	Generated with 9/1 entry date.
Entry Date = 9/1	Entry Date = 9/15	Generated with 9/15 entry date.
Entry Date = 9/15	Enter Date = 9/1	Generated with 9/1 entry date, but not until the job is run after 9/15.
N/A	Entry Date = 9/1	Not generated.
Entry Date = 9/1	N/A	Not generated.

• RF Tracker submission due date for LEAs - July 20, 2023

❑ Click **Run**.

When the process is complete, you are prompted to save a .zip file containing the individual files for the completed interchanges.

- *District* is the six-digit county-district number
- *YYYY-MM-DD* is the date when the folder was created
- *HH-MM-SS* is the hour, minute, and second when the folder was created

Example: *015102-2018-11-11.15-30-22.*TSDS.zip

The default name for the individual files is *District_Campus_Collection_TimeStamp_Interchange.xml*, where:

- *District* is the six-digit county-district number
- *Campus* is the three-digit campus ID
- *Collection* is the nine-character collection (ending school year & submission)
- *TimeStamp* is the 12-digit date-time-stamp when the interchange was created (YYYYMMDDHHMM)
- *Interchange* is the name of the interchange created.

Example: 015116_000_2020TSDS_201912111420_InterchangeEducationOrganizationExtension.xml

If errors are encountered:

1. Correct the data in ASCENDER.
2. Create the interchanges again.

IV. Guidance for the Mid-point RFT Check-in

As of the 2020-21 school year, TEA has implemented a new promotion and validation deadline that was added to the RF Tracker Timeline.

All RF Tracker data up to this point must be promoted, validated and fatal free. LEA will continue to report RF Tracker data as students enter and exit residential facilities or on a monthly basis throughout the school year. Mid-point RFT Check-in is due to TEA December 8, 2023.

The LEA will need to run the Summer PEIMS Special Education extract and generate the following Summer interchanges:
• *InterchangeEducationOrganizationExtension*
• *InterchangeStudentExtension*
• *InterchangeStudentProgramExtension*

Interchange	TSDS	SUMR
InterchangeEducationOrganizationExtension	Y	Y
InterchangeStudentExtension	Y	Y
InterchangeStudentParentExtension	Y
