Complex type: *SpecialProgramsReportingPeriodAttendanceExtension*

The flexible CTE attendance record includes information for CTE flexible attendance. The CTE flexible attendance data record is created for each eligible student who attended on a particular day at least 45 minutes of instruction and was served in an approved career and technical education program in the district. If the district offers instruction in CTE courses that have not been approved for funding, a flexible attendance data record should not be created for any student served in those courses.
