Create TSDS Core Collections Interchanges

State Reporting > Utilities > Create TSDS Core Collections Interchanges

This utility creates Core Collections interchanges from the data in the Student tables. You can create all of the interchanges at once, or you can select the individual interchange you wish to create.

The system will create a zipped file that can be submitted to TSDS.

Interchanges for the following collections can be created:

- Charter School Waitlist
- Child Find
- Class Roster Winter
- Class Roster Fall
- Early Childhood Data System (ECDS) KG
- Early Childhood Data System (ECDS) PK
- Residential Facilities (RF) Tracking
- Special Education Language Acquisition (SELA)
- State Performance Plan Indicator (SPPI) 14

Create interchanges:

	For example, select <i>Sumr1</i> if this is the first summer submission. If you are resubmitting summer data, select <i>Sumr2</i> .
	(Display only) The submission year as entered in the Submission Year field on State Reporting > Options is displayed.

The interchanges are listed according to the **Collection** field.

☐ Select **All Collection Interchanges** (e.g., **All Summer Interchanges**) to create all interchanges for the selected collection period.

Or, select the individual interchange you want to create.
