## Prerequisites

- Verify that all roles and users are correct in Security Administration.
- Verify Service IDs - Grade Reporting > Reports > Grade Reporting Reports > Master Schedules > SGR0220 - Invalid Service ID

## I. Verify Data in ASCENDER

Verify data for each element on the following pages and reports. It is suggested that you run reports first, and then use the maintenance pages to update data where needed.

### Hard-coded elements:

The following elements are hard-coded in the software. Hard coded values are built into the program, are the same each time they are extracted, and cannot be changed by the user.

COURSE-IDENTIFICATION-SYSTEM (E1089) is the system used to identify the organization of subject matter and related learning experiences provided for the instruction of students. **This is hard coded in the program as “State Course Code.”**

 To get them to extract, the staff member needs to be deleted from the *Grade reporting > Maintenance > Master Schedule > Campus Schedule > Instructor* tab.

Staff data can be verified by running the following report:

**NOTE:** For a more accurate list of active employees, run the report from Payroll > Reports > User Created Reports.

## II. (Student-only Districts) Import Staff Data

Student-only districts must either enter staff information in District Administration or use the Staff Import utility.

- [State Reporting > Utilities > Import Staff File](#)

**This utility is for Student-only districts.**

This utility imports basic staff demographic data to be used for the TSDS PEIMS Staff Interchange records (i.e., to join the unique staff ID with a teacher/staff record). Districts that do not use ASCENDER Business applications can import staff demographic data to be used for the TSDS Staff Interchange records. **This utility must be run before running the staff extract.**

### File layout

The utility accepts data from a comma-delimited text or CSV file (e.g., provided by a third-party business application vendor) and inserts the records into HR tables which allows you to maintain this data in the ASCENDER TSDS application.

The values must be inserted in this order:

Field	Validation
Unique staff ID	Must be ten digits.
Staff ID/SSN	Must be nine digits. Required. First character must be S or 0-8. First three characters must not be 000. Middle characters (3rd-4th digit) must not be 00. Last four characters must not be 0000. First seven characters must not be the same.
