State Reporting > Utilities > Import External File

Some districts may update data in TSDS tables from a text flat file created outside TxEIS where each row in the file corresponds to a TSDS record. The only TSDS record types available for importing for Submission 4 are:

- Organization-District (010)
- Organization-Campus (020)

**All other records are skipped.**

See online Help for file layouts.

The screenshot shows a user interface for importing a file. At the top, there are two buttons: 'Import' and 'Print Report'. Below these is a section containing a 'File:' label, an empty text input field, and a blue 'Browse' button.
