TSDS PEIMS Extended Year Submission

The State Reporting application provides programs to extract the appropriate data for each collection from the Business and Student systems. These programs are reviewed and modified annually, per the published Texas Web-Enabled Data Standards (TWEDS), to ensure that the data extracted to the district database is as accurate as possible. The extracts provide many of the edits as defined in the TWEDS.

The PEIMS extended submission (Submission 4) includes program data for instructional activities between school years for special education, extended year services (ESY), student data, student flexible attendance for credit recovery, and dual-credit course completion.

The Extended Year submission is due August 29, 2024.

IMPORTANT: Each LEA will have unique situations. Some of the dates, images, and examples provided in this document are for informational and instructional purposes only and may not completely represent your LEA's process.

Prerequisites

Prerequisites:

- Verify that all roles and users are correct in ASCENDER Security Administration.
- All staff responsible for extracting data must coordinate activities with each other. This is especially important when deleting data from the frozen file, extracting data, and manually entering data.
- You can begin working on TSDS extended data at any time; however, the school year must be over before you can extract TSDS Extended data.
- You can extract TSDS extended data whether or not Annual Student Data Rollover (ASDR) has been run; there is an option when extracting extended year data to select current year or last year.

Terminology:

- **Interchange:** A file that contains data in the correct format to be transferred to TEA.
- **Complex Type:** A grouping of Elements within an Interchange.
- **Element:** A specific unit of data that must be reported to the TEA.

Extract or Import Data

- Complete the extended extract.

  If you do not extract your data, skip this section.

  State Reporting > Extracts > Extended

  If you are running the Extended School Year (ESY) services extract, all existing ESY data in State Reporting is deleted. If you are running the Bilingual/ESL Summer School Program extract, all bilingual/ESL summer school indicators in State Reporting are set to 0. After the extracts have run, all demographic records in State Reporting for students who are not coded ESY or bilingual/ESL summer school are deleted.

  - Any combination of data can be extracted. Each option displays a separate error report.
  - The ESY extract sets the Bilingual/ESL indicators on the State Reporting demographic record if the options are set on the student record.

  If you are running the Additional Days School Year Program (ADSY) extract, when selected, this option will create the student demographic, basic attendance, and special education attendance for students participating in the Additional Days School Year Program. It will also create the staff demographic and responsibility records for a teacher with role ID 087 and 047 teaching a designed Additional Days School Year course with at least one enrolled student who is participating in the Additional Days School Year Program.

  Some districts may update data in TSDS tables from a text flat file created outside ASCENDER where each row in the file corresponds to a TSDS record. The only TSDS record types available for importing for Submission 4 are:

  - Organization-District (010)
  - Organization-Campus (020)

  All other records are skipped.

  See online Help for file layout.

File	Click **Browse** to select the file to import. The first letter of the filename indicates the submission period and must be one the following in order to be imported: F (fall) M (mid-year) S (summer) E (extended) Once a file has been selected the **Import** button is enabled.

After you Extract Data

1. Verify and update frozen organization data.

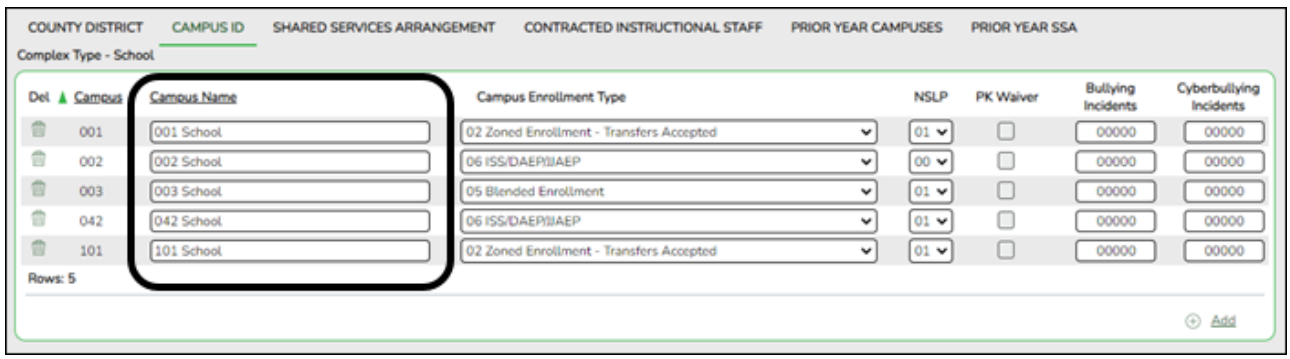

> **NOTE:** Organization data is always maintained from the Organization maintenance pages; there is no extract.

State Reporting > Maintenance > Organization > County District

❑ Update data for the *LocalEducationAgencyExtension* complex type as needed. For Submission 4, only **District ID** and **District Name** are required.

State Reporting > Maintenance > Organization > Campus ID

❑ Update data for the *School* complex type as needed. For Submission 4, only **Campus** (ID) and **Campus Name** are required.

2. Enter/update frozen data.

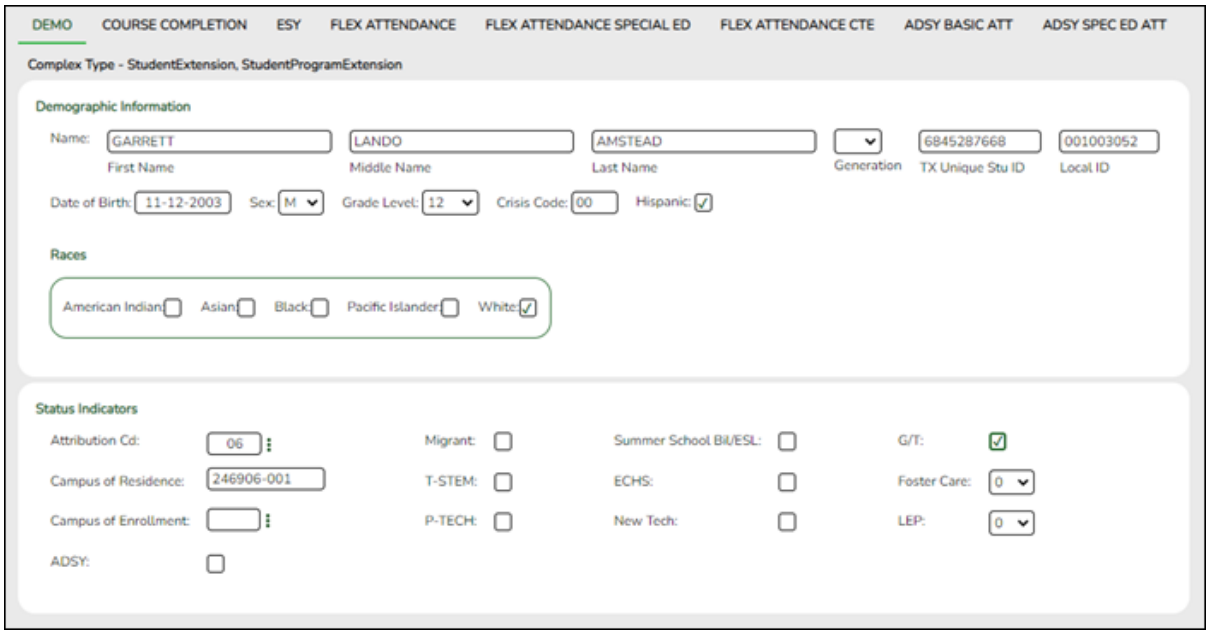

You may find extracted or merged records containing incomplete or inaccurate information. Use the Extended maintenance pages to update and correct the data saved in the district database (i.e., frozen data).

Data on the maintenance pages is updated every time data is extracted, including data that is manually entered.

NOTE: You cannot maintain data on maintenance pages while running an extract; a warning message is displayed on the Extended maintenance page indicating that the extract is in progress, and the **Save** button is disabled.

- Correct frozen demographic data.

  State Reporting > Maintenance > Extended > Student > Demo

❑ Update data for the *StudentExtension* and *StudentProgramExtension* complex types as needed.

NOTE: If you are retrieving a student who was not extracted but was included in the PEIMS Summer Submission, the following message is displayed when you retrieve the student:

- Enter course completion data for dual-credit courses.

You must manually enter course completion data for dual-credit courses taken in summer.

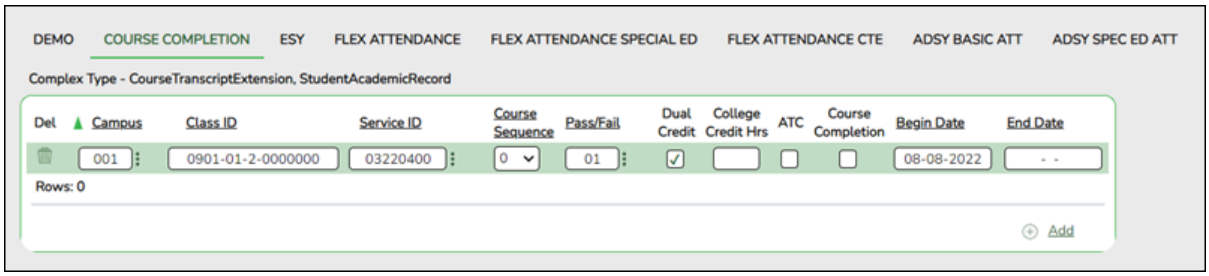

In submission 4, one *StudentAcademicRecord* complex type must be submitted for each unique class (course-section) that was attended by a student during the summer (between school years) for the purpose of attempting to earn dual credit.

PEIMS Extended Year Submission (4): Reporting students that completed courses during the summer (between school years) for:

- a high school Career and Technical Education (CTE) course, or
- a dual credit course, or
- College Preparatory Course English Language Arts (CP110100), or
- College Preparatory Course Mathematics (CP111200).

NOTE: You cannot report more than six course completion records per student.

State Reporting > Maintenance > Extended > Student > Course Completion

❑ Update data for the *CourseTranscriptExtension* and *StudentAcademicRecord* complex types as needed.

Campus ID	CAMPUS-ID-OF-ENROLLMENT (E0782) Type or select the three-digit campus ID. For submission 4, this is the campus that scheduled and/or awarded the high school credit for the dual-credit course attempted by the student in the summer between school years.
Class ID	CLASS-ID-NUMBER (E1056) Type the 14-digit number identifying the class. The class ID can be any 14-character district-defined identifier comprised of letters and numbers that uniquely identifies a class at the employee and campus level. Spaces are not allowed. The ID is unique for each employee at the campus. The first 7-11 digits are required. The length depends on the length of the course number. The ID is automatically zero-filled when you save. When extracting from the master schedule, the class ID is set to the course number (4-8 digits) + 2-digit section number + 1-digit semester number + padding with zeros.
Service ID	SERVICE-ID (E0724) Code table: C022 Select the code indicating the services supplied by the employee. Service IDs that begin with SA, SE, SR, SS, 01, 8, or 9 are not reported. Service IDs for PK and KG that begin with 02 cannot be reported. Verify that all service IDs to be reported exist in code table 022 (C022) in the TEDS.
Course Sequence	COURSE-SEQUENCE-CODE (E0948) Code table: C135 This is the order in which the course was scheduled. This should only be used if the course, or part of the course, is taught out of sequence. Leave blank if the course is not taught out of sequence. Rule 43415-0036: If a student passed a course where **Dual Credit** is selected and **Course Sequence** is 0, 2, 5, or 9, then **College Credit Hrs** must be greater than 0.

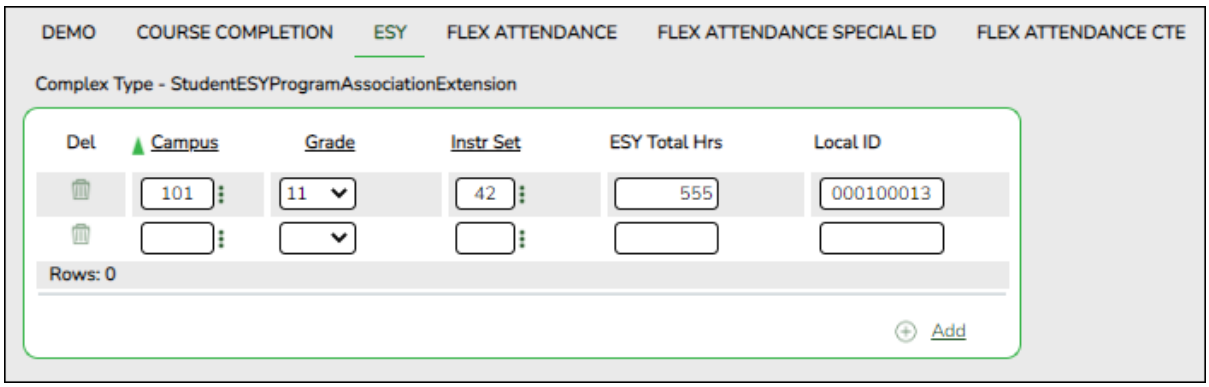

Pass/Fail	PASS/FAIL-CREDIT-INDICATOR-CODE (E0949) Code table: C136 Select the student's outcome for the course. You must enter a pass/fail indicator for each service ID reported. Rule 43415-0036: If a student passed a course where **Dual Credit** is selected and **Course Sequence** is 0, 2, 5, or 9, then **College Credit Hrs** must be greater than 0.
Dual Credit	DUAL-CREDIT-INDICATOR-CODE (E1011) Code table: C088 Select if the student is eligible to receive both high school and college credit for the course. You can select **Dual Credit** or **ATC**, but not both. Rule 43415-0036: If a student passed a course where **Dual Credit** is selected and **Course Sequence** is 0, 2, 5, or 9, then **College Credit Hrs** must be greater than 0.
College Credit Hrs	COLLEGE-CREDIT-HOURS (E1081) This is the number of college hours the student earned for the completion of the dual-credit course. If a student takes a dual-credit course and does not complete the course, type 0.
ATC	ATC-INDICATOR-CODE ATC (E1058) PEIMS code table: C088 For Submission 4, the field must be 0 (i.e., not selected).
Course Completion	COURSE-COMPLETION-INDICATOR (E1068) This indicates if the student finished the full sequence of instruction for the course, but does not necessarily indicate that the student met all requirements to receive credit or a grade for the course. The PASS/FAIL-CREDIT-INDICATOR-CODE field is used for COURSE-COMPLETION-INDICATOR. All students must have a Pass/Fail indicator to create the course completion record.
Begin Date	STUDENT-BEGIN-DATE (E1069) Type the beginning date for the student's current year class assignment. Use the MMDDYYYY format. This is the date the dual-credit course began. If a student is assigned to a class, withdraws from that class, and then returns to that class at a later date, there must be a record for each begin date.
End Date	STUDENT-END-DATE (E1070) Type the ending date for the student's current year class assignment. Use the MMDDYYYY format. This is the date the dual-credit course ended. If a student withdraws from a class, returns to that class, and then withdraws from class at a later date, there must be a course completion record for each of these STUDENT-END-DATEs. Whether or not a student completes a particular course section, report the STUDENT-END-DATE as the last day the student was assigned to the class. The STUDENT-END-DATE should never be greater than a student’s withdrawal date from the campus.

❑ Click **Save**.
