# TSDS PEIMS Extended Year Submission

The State Reporting application provides programs to extract the appropriate data for each collection from the Business and Student systems. These programs are reviewed and modified annually, per the published Texas Web-Enabled Data Standards (TWEDS), to ensure that the data extracted to the district database is as accurate as possible. The extracts provide many of the edits as defined in the TWEDS.

The PEIMS extended submission (Submission 4) includes program data for instructional activities between school years for special education, extended year services (ESY), student data, student flexible attendance for credit recovery, and dual-credit course completion.

**The Extended Year submission is due August 29, 2024.**

**IMPORTANT:** Each LEA will have unique situations. Some of the dates, images, and examples provided in this document are for informational and instructional purposes only and may not completely represent your LEA's process.

- All staff responsible for extracting data must coordinate activities with each other. This is especially important when deleting data from the frozen file, extracting data, and manually entering data.
- You can begin working on TSDS extended data at any time; however, the school year must be over before you can extract TSDS Extended data.
- You can extract TSDS extended data whether or not Annual Student Data Rollover (ASDR) has been run; there is an option when extracting extended year data to select current year or last year.

### Terminology:

- **Interchange:** A file that contains data in the correct format to be transferred to TEA.
- **Complex Type:** A grouping of Elements within an Interchange.
- **Element:** A specific unit of data that must be reported to the TEA.

## Extract or Import Data

- [Complete the extended extract.](#)

If you do not extract your data, skip this section.

[State Reporting](#) > [Extracts](#) > [Extended](#)

If you are running the Extended School Year (ESY) services extract, all existing ESY data in State Reporting is deleted. If you are running the Bilingual/ESL Summer School Program extract, all bilingual/ESL summer school indicators in State Reporting are set to 0. After the extracts have run, all demographic records in State Reporting for students who are not coded ESY or bilingual/ESL summer school are deleted.

- Any combination of data can be extracted. Each option displays a separate error report.
- The ESY extract sets the Bilingual/ESL indicators on the State Reporting demographic record if the options are set on the student record.

If you are running the Additional Days School Year Program (ADSY) extract, when selected, this option will create the student demographic, basic attendance, and special education attendance for students participating in the Additional Days School Year Program. It will also create the staff demographic and responsibility records for a teacher with role ID 087 and 047 teaching a designed Additional Days School Year course with at least one enrolled student who is participating in the Additional Days School Year Program.
