## State Reporting &gt; Extracts &gt; Extract Status

<b>Extract Type</b>	Select the extract type for which you want to check job status or completion.
	Extract Type: <input style="border: 1px solid #ccc; padding: 2px 10px; margin-right: 10px;" type="button" value="Student Fall"/> <input style="border: 1px solid #0070C0; background-color: #0070C0; color: white; padding: 2px 10px;" type="button" value="Refresh"/> <input style="border: 1px solid #ccc; background-color: #e0e0e0; padding: 2px 10px;" type="button" value="Delete"/>

- The list of jobs for the selected extract type is displayed, sorted by date in descending order.
- [The data can be re-sorted.](#)

A white triangle is displayed in the heading row next to the column by which the grid is currently sorted. If the column is sorted in ascending order, the triangle points up. If the column is sorted in descending order, the triangle points down.

- To re-sort data in the grid, click the underlined column heading. It will sort in ascending order.
- Click it again to sort in descending order.

Various error reports may be displayed if errors are encountered. Click **Print Report**. Review and correct all errors.

Student records are not extracted if the following conditions exist:

Blank or invalid SSN, including 000000000

Blank Texas Unique Student ID

Invalid student record status

Duplicate SSNs (The first student encountered with the SSN is extracted; all others with the same SSN are not extracted.)

Verify the counts for each record type, and determine the reason for each bypassed student.

### If students are bypassed:

1. Correct data in the student files.
2. Run the [Delete/Clear Tables utility](#) to delete or clear previous data for the desired tables.
3. Re-extract the data.
4. Verify the data.
5. Repeat until no students are bypassed.
