State Reporting > Utilities > Import External File

Some districts may update data in TSDS tables from a text flat file created outside ASCENDER where each row in the file corresponds to a TSDS record.

The only TSDS record types available for importing are:

- Organization-District (010) (10010 - *LocalEducationAgencyExtension* complex type)
- Organization-Campus (020) (10020 - *SchoolExtension* complex type)
- Finance-Budget (030) (20030 - *BudgetExtension* complex type)
- Finance-Actual (032) (20032 - *ActualExtension* complex type) **(not used for Submission 1)**
- Finance-SSA Actual (033) (20033 - *SharedServiceArrangementExtension* complex type) **(not used for Submission 1)**

IMPORTANT! Only these record types can be imported. **All other records are skipped.**

Import
Print Report

File:
Browse

File Click **Browse** to select the file to import.

The first letter of the filename indicates the submission period and must be one the following in order to be imported:

F (fall)
M (mid-year)
S (summer)
E (extended)

Once a file has been selected the **Import** button is enabled.

The screenshot shows a user interface for file import. At the top, there are two buttons: 'Import' (highlighted with a green border, indicating it is enabled) and 'Print Report' (greyed out, indicating it is disabled). Below these buttons is a text input field containing the filename 'F_20xx_Import.txt' and a 'Browse' button (highlighted with a green border, indicating it is enabled).

Click **Import**.

When the import is complete, results are displayed, including counts of errors, records read, records skipped, and records by type.

The screenshot shows the results of a file import. At the top, there are two buttons: 'Import' (greyed out) and 'Print Report' (highlighted in blue). Below these buttons is a text input field labeled 'File:' which is empty, and a 'Browse' button (highlighted in blue). Below the input field is a section titled 'Import Results for File' containing a table of statistics.

Import Results for File	
Total Records with Errors:	0
Total Records Read:	1
Total Records Skipped:	1
010 Records:	0
020 Records:	0
030 Records:	0
032 Records:	0
033 Records:	0

Valid records are imported. Records marked with errors are not imported.

Correct any errors, and then run the [Delete Tables utility](#) to clear out the imported data;

otherwise duplicate record errors will occur when you attempt to import a second time for the valid records that were imported originally.

Print Report

Click to [print the PEIMS Import External File Report](#).

Review the report using the following buttons:

- Click  to go to the first page of the report.
- Click  to go back one page.
- Click  to go forward one page.
- Click  to go to the last page of the report.

The report can be viewed and saved in various file formats.

- Click  to save and print the report in PDF format.
- Click  to save and print the report in CSV format. (This option is not available for all reports.) When a report is exported to the CSV format, the report headers may not be included.
- Click  to close the report window. Some reports may have a **Close Report**, **Exit**, or **Cancel** button instead.

Records that resulted in an error are listed. The line number in the file corresponding to the record that caused an error is displayed in the first column, and the record itself is displayed in the second column. A summary of the import is printed on the last page of the report.
