[State Reporting > Utilities > Import External File](#)

Some districts may update data in TSDS tables from a text flat file created outside TxEIS where each row in the file corresponds to a TSDS record. **This only applies to Student-only districts.**

The only TSDS record types available for importing are:

- Organization-District (010) (10010 - *LocalEducationAgencyExtension* complex type)
- Organization-Campus (020) (10020 - *SchoolExtension* complex type)
- Finance-Budget (030) (20030 - *BudgetExtension* complex type) **(not used for Midyear)**
- Finance-Actual (032) (20032 - *ActualExtension* complex type)
- Finance-SSA Actual (033) (20033 - *SharedServiceArrangementExtension* complex type)

IMPORTANT! Only these record types can be imported. All other records are skipped.

The screenshot shows a web interface for importing a file. At the top, there are two buttons: "Import" (highlighted in blue) and "Print Report" (greyed out). Below these is a file selection area with a text input field containing "M2019import.txt" and a blue "Browse" button.
