## Interchange: StudentRestraintEventExtension Complex Type: RestraintEventExtension

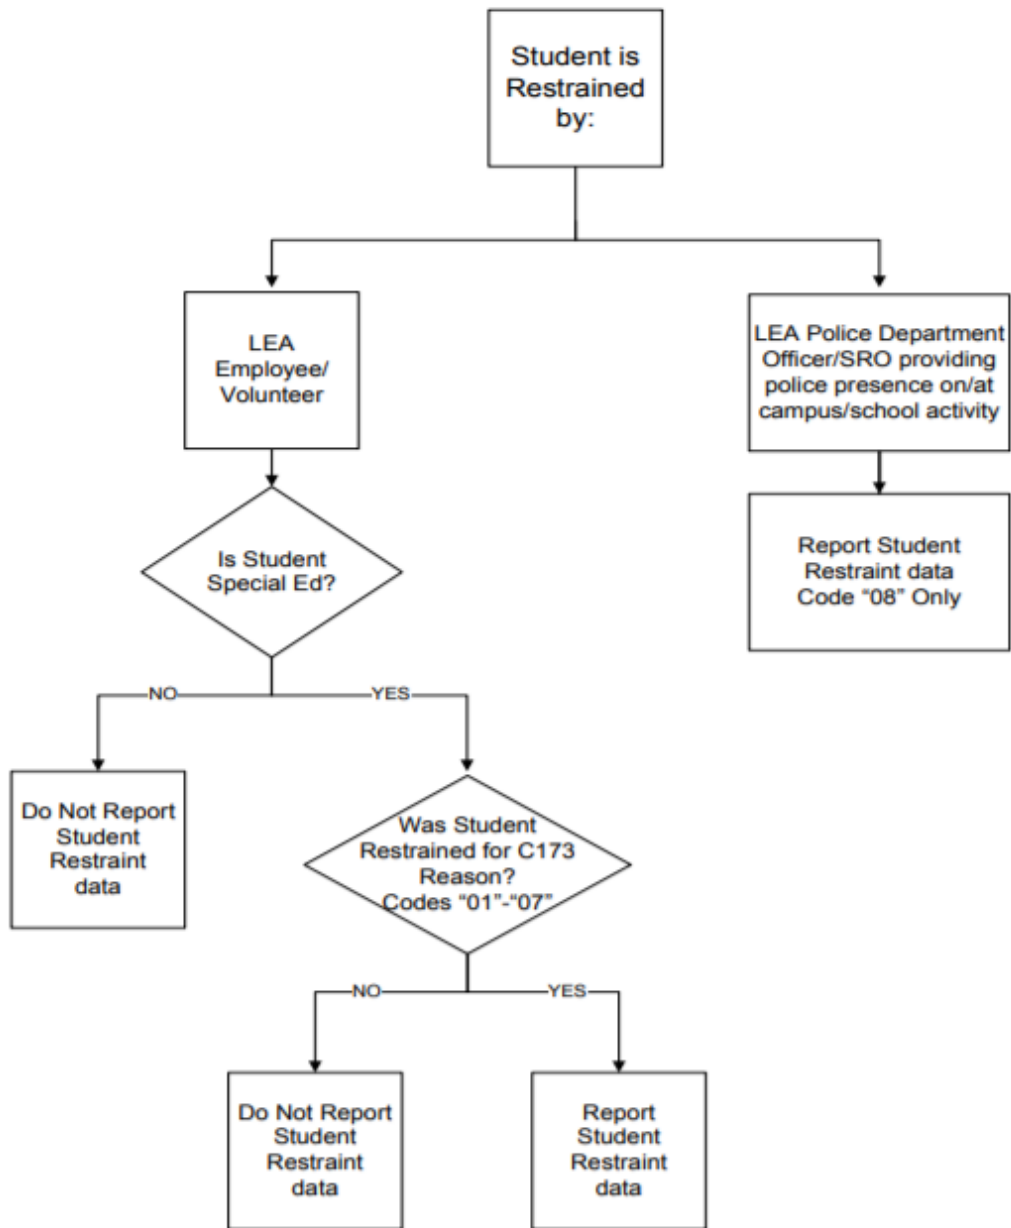

**Description:** Represents restraint data for:

- Restraints of all students that are administered by school district police officers and school resource officers working with a LEA under a local MOU.
- Restraints of special education students that are restrained by LEA employees and volunteers.

The Discipline Child Restraint tab is used for all disciplinary restraint incidences, including disciplinary restraint for a special education student. The Special Education Child Restraint tab is only used when a special education student is restrained for non-disciplinary reasons.

Verify all restraint data that will be reported. Refer to the following flow chart:
