Data extracted: *InterchangeStudentExtension* and *InterchangeStudentProgramExtension*

If you are running the Extended School Year (ESY) services extract, all existing ESY data in PEIMS is deleted. If you are running the Bilingual/ESL Summer School Program extract, all bilingual/ESL summer school indicators in PEIMS are set to 0. After the extracts have run, all demographic records in PEIMS for students who are not coded ESY or bilingual/ESL summer school are deleted.

- Any combination of data can be extracted. Each option displays a separate error report.
- The ESY extract sets the Bilingual/ESL indicators on the PEIMS demographic record if the options are set on the student record.
