Budget Extract Automatic Crosswalks

If your district maintains budget data in greater detail than the state-mandated level, the detail is summarized to the state-mandated level. The automatic crosswalks in the PEIMS extract program perform the summarization.

The state-mandated level of detail for budget data can be found in the [TEA Financial Accountability System Resource Guide](#).

The extract program will automatically make the following changes to the budget data being extracted to PEIMS:

| Account Code Description | Account Code | PEIMS Code |
