Do not include holidays, weekends, or any other days the employee is not scheduled to work. If the employee does not work the same number of days as shown on the contract (e.g., the person does not begin work at the start of the school year), the actual number of days the employee will work must be reported.

For an employee on contract, determine the percentage directly from the contract (i.e., full-time=100, half-time=050, etc).</p> <p>For a non-contract employee, determine the percentage as follows: Example: The standard work day for the district is 7 hours. The employee is hired to work for 4 hours a day. In this case, type 057 for the employee because $4/7 = .571$, which is rounded down.</p> <p>Employees such as cafeteria workers and bus drivers who work only a few hours each day should not be reported as 100. Do not look at the job, but rather the number of hours worked in relation to the standard district work day.</p>
